见字如面

时间过的真快，从接触ACCA到现在，已十年有余。

转眼间已从十八岁的无知少年成为一名讲师。还记得我考试的那两年，每天必带BPP练习册，讲义，计算器和一本厚厚的手写A4纸笔记，穿梭在学校，图书馆，自习室，就连跟闺蜜约场电影，也是背着沉甸甸的包去赴约，也曾在自习室里哭的像个傻逼，崩溃过后，继续刷题。当时也不知是哪来的拼劲，不知道前路是何样，也向往着白领精英的生活，但好像离我都特别遥远，只知道先做好眼下的工作，尽早考完所有的学科，早日脱离这苦海。

我一直不是个特别聪明的学生，但我很用心，是只打不死的小强。老师在课堂上全英文授课的时候，我大多听不懂，一开始是因为语言问题，后来好不容易适应了英文，又越学越难，有一种在泥里行走的感觉，摸不到边际，看不到尽头。但我很奇怪，一遇到难点，就会异常兴奋，喜欢这种挑战，更喜欢征服过后的满足感。随着ACCA越学越难，我也越学越入迷，终于，两年全部考完。

在这所有的科目里，最有感情的就是财务报告，因为太过沉迷于报表，也顺带喜欢准则，后来慢慢爱上了IFRS。

当你在一个安静的午后，泡一杯咖啡，坐在图书馆窗边的角落里，阳光洒落在笔记上，思考着某条准则背后的原因时，突然感觉整个人就通透了，这种沉淀式的学习，让我更加迷恋财务报告这门学科。

你不得不承认，兴趣是最好的老师，就连我现在教课，也常常告诉自己，不要丢掉对报表的喜爱。因为喜欢，所以投入，准则是一套优美的体系，希望大家也能从中感受到他的力量。

“ IFRS is Power ”

@敬丹Jane

Exam Format

Computer based examination - 3 hours				
试卷组成	难度系数	题型分布	考察内容	分值
Section A	⭐⭐⭐⭐⭐	15 道客观题 @ 2分	所有章节	30分
Section B	⭐⭐⭐	3 段案例客观题 共15道题 @ 2分	所有准则	30分
Section C	⭐⭐⭐⭐⭐	2道主观 @ 20分	**Question 1: 财报分析** -单体报表分析 -合并报表分析 **Question 2: 报表编制** - 单体报表 - 合并报表	40分

第一章 报表格式

IFRS 18 Presentation and disclosure of financial statements

Statement of financial position as at year ended 31/12/2025

	$'000
Assets	
Non-current assets	
Property, plant and equipment	X
Intangible assets	X
Investment property	X
Right-of-use assets	X
Financial assets	X
Deferred tax assets	X
	XX
Current assets	
Inventory	X
Trade receivable	X
Contract assets	X
Cash / Bank	X
	XX
Non-current assets held for sale	X
Total assets	XX
Equity and liabilities	
Equity	
Share capital / Equity share	X
Share premium	X
Retained earnings	X
Revaluation surplus /Revaluation reserve	X
Other component of equity /Other reserve	X
	XX

Non-current liabilities	
Loan note/redeemable preference share	X
Convertible loan note：liability element	X
Loan in substance	X
Deferred tax liability	X
Lease liability	X
Deferred income	X
	XX
Current liabilities	
Trade payable	X
Contract liability	X
Tax payable	X
Bank overdraft	X
Lease liability	X
Deferred income	X
	XX
Total equity and liabilities	XX

【注意】

- 除非国际会计准则要求或允许，否则企业不能将资产和负债或收益和费用相互抵消
- IFRS 18 要求利润表中的收入以及费用需要分类为以下五个大类：(见第十二章)

① Operating category 经营活动

② Investing category 投资活动

③ Financing category 融资活动

④ Income taxes category 企业所得税活动

⑤ Discontinued operation category 停止经营活动（见第四章）

Statement of profit or loss and other comprehensive income for the year ended 31/12/2025

		$'000
Operating	Sales revenue	X
	Less: Cost of sales	(X)
	Gross profit 毛利润	**X**
	Add: Other operating income	X
	Less：Operating expense	
	Selling expense	(X)
	Research and development expense	(X)
	General administrative expense	(X)
	Other operating expense	(X)
	Operating profit 经营利润（新增）	**X**
Investing	Share of profit of associate	X
	Investment income	X
	Profit before financing and income tax 息税前利润	**X**
Financing	Interest expense from borrowing and lease liability	(X)
	Interest expense on provision	(X)
	Profit before income tax 税前利润	**X**
Income tax	Income tax expense	(X)
	Profit 净利润	**X**
	Other comprehensive income：	
	Revaluation gain under revaluation model (netted off tax effect)	X
	Gain or loss of FVTOCI	X/(X)
	Total comprehensive income	**XX**

【注意】

- 经营活动中的费用需要按功能分类呈现，例如销售费用，研发费用，管理费用等。
- 如果费用功能性质相同，则可以合并记录总费用，但如果个别费用金额较大，或属于一次性费用，例如裁员费，企业重组费用，商誉减值损失等，需要单独列示。

Statement of changes in equity for the year ended 31/12/2025

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

第二章 概念框架

1. Conceptual framework

A conceptual framework is the theoretical basis for determining which events should be accounted for, how they should be measured and how they should be communicated to the user.The Conceptual Framework is not a Standard. Nothing in it overrides any requirement in a Standard.

《概念框架》不是国际会计准则，因此不对任何特定的计量和列报确立具体标准，但它是会计准则的制定基础，它包含了编制报表的基本原则，财报信息的质量特征，会计要素的定义，确认和计量等。理事会认为，在为数不多的情况下，本《概念框架》和某项国际会计准则之间可能会有抵触，在此情况下应当以国际会计准则而不是本《概念框架》要求为准。

☑ 考点：IFRS overrides Conceptual framework. 当准则与本概念框架冲突时，以具体准则为主，准则凌驾于概念框架。

1.1 Advantages of a conceptual framework

① Accounting standards are developed on the same theoretical principles which avoids a haphazard approach to settling standards 会计准则是基于相同的理论原则制定的，避免了随意制定准则的做法

② The development of accounting standards is less subject to political pressure 会计准则的制定受政治压力的影响较小

③ Accounting standards use a consistent approach（without a conceptual framework，some standards may concentrate on profit or loss whereas some may concentrate on the valuation of net assets）会计准则采用一致的方法（没有概念框架，一些准则可能侧重于损益，而另一些准则可能侧重于净资产估值）

④ A principle-based approach avoids the need for large volumes of rules to address every scenario 基于原则的方法避免了需要大量准则来解决每种情况的问题

1.2 Disadvantages of a conceptual framework

① It is not certain that a single conceptual framework can be devised which will suit all users 尚不确定能否设计出一个适合所有用户的单一概念框架

② Given the diversity of user requirements, there may be a need for a variety of accounting standards, each produced a different purpose and with different concepts as a basis 鉴于用户需求的多样性，可能需要各种会计准则，每种准则都有不同的目的，并以不同的概念为基础

③ It is not clear that a conceptual framework makes the task of preparing and then implementing standards any easier than without a framework 尚不清楚概念框架是否比没有框架更容易制定和实施

2. Basic concepts

2.1 Going Concern【Underlying assumption】

The Conceptual Framework states that financial statements are normally prepared on the assumption that the reporting entity will continue for the foreseeable future. In other words, it is assumed the entity will not enter liquidation, or cease to trade. 在可预见的未来企业没有破产清算的打算，可预见未来指未来十二个月。

If this is not the case then the financial statements would be prepared on a break-up basis. 一旦企业失去可持续经营，就需要用破产清算原则重新编制报表。

2.2 Accrual basis

The effects of transactions and other events are recognised when they occur (and not as cash is received or paid) and they are recorded in the accounting records and reported in the financial statements of the periods to which they relate.

The accrual basis gives rise to the "matching" concept – that expenses are recognised based on a direct association between costs incurred and earning of income.

权责发生制要求企业在收入和费用发生时确认，而不是按照现金收付来确认。同时，在利润表中确认的收入和费用需要遵循匹配性原则即 matching rule。

3. Qualitative characteristics

Fundamental 基本特征	
Relevance	Information should influence the economic decisions of users. Financial information is capable of making a difference in decisions if it has **predictive value**, **confirmatory value** or both. 相关性指那些能够影响财务决策的信息。如果信息具有预测价值，证实价值或两者兼有，则能够对决策产生重要影响。预测价值指能够被使用者在预测未来结果中参考；证实价值指该信息提供了关于之前评估的反馈（证实或更改）。 【Materiality】is **entity-specific** and based on its nature and magnitude. Information is material if omitting it or misstatement it could influence decision that the users make on the basis of financial statements. 如果省略或误报某信息会影响使用者决策，则该信息具有重要性。信息的重要性受到性质和金额大小影响。

Faithful representation	① Complete: all information necessary for understanding ② Neutral: without a basis, supported by exercise of prudence* ③ Free from error: processes and descriptions without error, does not mean perfect ④ Substance over form: transactions and other events are accounted for and presented in accordance with their economic reality and not merely their legal form. 企业应根据交易的经济本质确认而非法律形式。 Prudence：the exercise of caution when making estimates under of uncertainty, such that assets and income are not overstated and liabilities and expenses are not understated. For example: • assets are tested for impairment and resulting losses are recognised (IAS 36) • inventories are measured at the lower of cost and net realisable value (IAS 2) • provisions are recognised for liabilities even if not certain (IAS 37)
Enhancing 强化特征	
Comparability	Information should be compared through time to identify trends, or with other entity's statements. 可比性是能过令使用者识别各项目之间的相似性和差异性，它不应与一致性相混。 【Consistency】Consistency refers to the use of the same methods for the same items, either from period to period within a reporting entity or in a single period across entities. 一致性指企业针对相同的项目使用相同的方法处理 For example： • Disclosure the accounting polices • Retrospective adjustment for changing of accounting policies（IAS 8）
Verifiability	It means that different knowledgeable and independent observers could reach consensus that a particular depiction is a faithful representation. 可验证性意味着不同的知情及独立观察者能够就某一特定描述是否真实而达成共识。可验证性有助于使用者确定这些信息是否遵循了忠实表达，即表达了其旨在反映的经济现象。 For example： • Inventory count • Valuation by a specialist 资产评估师对资产估值

Timeliness	Timeliness means having information available to decision-making in time to be capable of influencing their decisions. 及时性意味着决策者及时提供能够影响其决策的信息。
Understandability	The information of financial statements should be understood by users who have a reasonable knowledge of business and economic activities. Classifying, characterizing and representing information clearly and concisely makes it understandable. 清晰和简明地对信息进行分类，界定其特征和列报信息是可理解性的要求。 **Complex matters** should not be left out of financial statements simply due to their difficulty if the information is relevant. 对于复杂信息虽然会使财报不易被使用者理解，但也不可以将此信息剔除，因为漏报会使信息不完整而误导使用者。

3. Five elements

Assets【背过】	- A present economic resource controlled by the entity as a result of past events - Economic resource is a right that has the potential to produce economic benefits
Liability【背过】	- A present obligation of the entity to transfer an economic resource as a result of past events - Obligation：is a duty of responsibility that an entity has no practical ability to avoid
Equity【背过】	Equity is the residual interest in the assets of the entity after deducting all its liabilities.
Income	Income is increases in economic benefits during the accounting period in the form of inflows or enhancements of assets or decreases of liabilities that result in increases in equity, other than those relating to contributions from equity participants.
Expense	Expense is decreases in economic benefits during the accounting period in the form of outflows or depletions of assets or incurrences of liabilities that result in decreases in equity, other than those relating to distributions to equity participants.

4. Recognition of elements【更新过】

The conceptual framework requires an item to be recognised in the financial statements if:

① Meets the definition of an elements

② Recognition of that element provides users of the financial statements with information that is useful, ie with:

- Relevant information about the element
- A faithful representation of the element

Recognition is subject to cost constraint: the benefits of the information provided by recognising an element should justify the costs of recognising that element

成本对于财务报表能够提供的信息构成普遍限制。报告财务信息需付出成本，而重要的是报告此类信息所带来的利益能够证明相关成本是合理的。

5. Measurement of elements【背过】

The conceptual framework specifically refers to two measurement bases:

- Historical cost
- Current value :
  - Current cost
  - Fair value
  - Value in use (Asset) and fulfillment value (Liability)

	Assets	**Liability**
Historical cost	The historical cost of an asset when it is acquired or created is the value of the costs incurred in acquiring or creating the asset, comprising the consideration paid to acquire or create the asset plus transaction costs. 按照购置或获得资产时所支付的现金来计量，包含交易成本。	The historical cost of a liability when it is incurred or taken on is the value of the consideration received to incur or take on the liability minus transaction costs. 按照承担义务时所收到的款项金额计量，并减去交易成本。
Current cost	The current cost of an asset is the cost of an equivalent asset at the measurement date, comprising the consideration that would be paid at the measurement date plus the transaction costs that would be incurred at that date. 按照现在购买同一资产或类似资产所需支付的现金计量，包含交易成本。	The current cost of a liability is the consideration that would be received for an equivalent liability at the measurement date minus the transaction costs that would be incurred at that date. 按照现在偿付该负债所需支付的现金来计量，并减去交易成本。

Fair value	The price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date 在有序交易中，双方自愿支付或收到的金额 IFRS 13 defines fair values as an exit price. 公允价值是一种脱手价格/退出价格	
Value in use (Assets) **Fulfillment value (Liability)**	Value in use is the present value of the cash flows, or other economic benefits that an entity expects to derive from the use of an asset and from its ultimate disposal 按照其资产正在使用中所能产生的，未来现金流入（减去最终处置资产的现金流出）净额的折现价值计量。 Value in use considers entity-specific factors, whereas fair value is market specific.	Fulfillment value is the present value of the cash, or other economic resources, that an entity expects to be obliged to transfer as it fulfills a liability. 按照其予以偿还所需的，未来现金流出的折现价值计量。 Fulfillment value is entity specific.

【注意】Value in use 和 Fulfillment value的计量方法建立在企业自身假设 “Entity-specific assumptions” 的基础上，根据企业不同的情况而预测未来现金流。

Advantages of the historical cost:

① Simple to understand 便于理解

② Amounts are reliable, they can always be verified, they exist on invoice and documents. 容易验证，历史成本即购买价值，一般都会有对应的原始凭证

③ Amounts used are objective, as it is more difficult to manipulate cost-based figures. 较为客观，难篡改

Disadvantages of the historical cost:

① The carrying value of assets is often substantially different to market value 跟现值存在较大差异

② No account is taken of inflation meaning that profits are overstated and assets understated 没有考虑通货膨胀等因素对科目价值的影响，容易造成资产低估以及利润高估（当资产低估，折旧低估，所以会造成利润高估）

③ Ratios like Return on capital employed（ROCE）are distorted 会导致个别财务比例失真

Advantages of using current value:

① Current value is a useful guide for management in deciding whether to hold or sell assets and when to settle the liability. 利于管理层决定资产是继续持有还是直接卖掉，以及负债是否现在偿还

② It is relevant to the needs of information users in:

- Assessing the stability of the business entity 利于报表使用者衡量企业稳定性
- Assessing the liquidity of the business 利于报表使用者衡量企业流动性

Disadvantages of using current value:

① Amounts require subjective judgement by management 估值需要主观判断

② As the Conceptual Framework allows different group assets and liabilities to be valued on different bases, this can mean that some assets will be valued at current cost, but others will be valued at value in use or fair value. 概念框架允许企业选择不同的计量方法，也就意味着同一企业内部使用不同的计量方法，例如有的资产使用替换成本法，有的资产使用公允价值或使用价值计量

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

【经典例题】

1. Drexler company acquired an item of plant on 1 October 2012 at a cost of $500,000. It has expected life of 5 years (Straight-line depreciation) and an estimated residual value of 10% of its historical cost or current cost. As at 30 September 2014, the manufacturer of the plant still makes the same item of plant and its current price is $600,000.

   What is the correct carrying amount to be shown in the financial statement as at 30 September 2014 under historical cost and current cost.

	Historical cost	Current cost
A.	320,000	600,000
B.	320,000	384,000
C.	300,000	600,000
D.	300,000	384,000

2. **2021年6月考官报告**

   Which of the following is NOT included in the IASB definition of an asset in the Conceptual Framework for financial reporting?

   A. The asset is controlled by the entity
   B. The asset is a present economic resource
   C. The economic resource can be reliably measured
   D. The asset exists as a result of past events

Answer：B C

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

第三章 监管框架

1. Principles-based vs rules-based approach

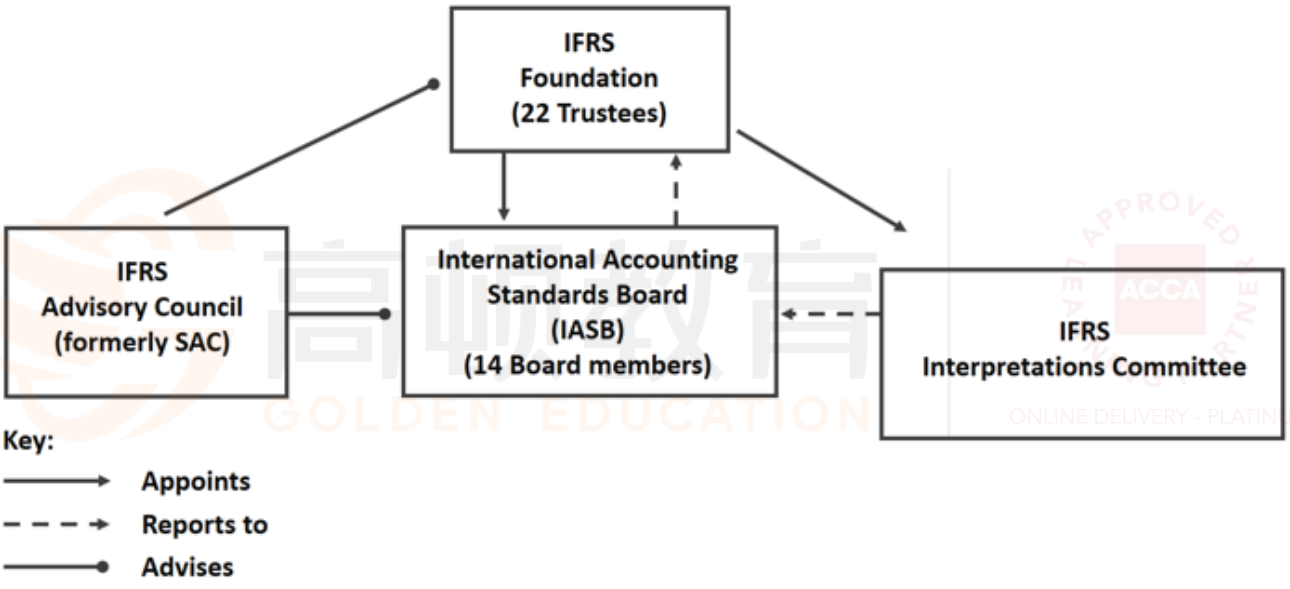

Principal- based approach	Rule- based approach
A principles-based (conceptual framework) approach such as that used by the IASB. 此为原则导向法，也是ACCA正在使用的会计体系，以原则为基础研究颁布主要准则，在没有准则的领域，依然以原则为准来处理。	A rules-based approach such as that used in the US. 此为准则导向法，也是美国GAAP正在使用的体系，在所有领域都以具体准则为准，没有统一的原则指导。

Advantages of principle-based:

① Single framework ensuring consistency across standards 能使准则之间更协调统一

② Principle avoid requirement of excessive detail in standards 避免准则内容过于繁琐

2. Regulatory framework

IFRS Foundation	The IFRS Foundation is an independent body that oversees the IASB. Its objective is to: ① 通过IASB制定准则：develop a single set of high quality, understandable, enforceable and globally accepted accounting standards through its standard-setting body, the IASB ② 推广使用：promote the use and rigorous application of those standards. ③ 实现趋同：bring about convergence of national accounting standards and IFRSs to high quality solutions. ④ 考虑特殊需求：take account of financial reporting needs of emerging economies and SMEs（跨国公司以及中小企业财报需求）
IASB	The International Accounting Standards Board (IASB) is an independent, privately-funded body that develops and approves International Financial Reporting Standards (IFRSs).
IFRS Advisory Council	The IFRS AC is essentially a forum used by the IASB to consult with the outside world. It consults with national standard setters, academics, user groups and a host of other interested parties to advise the IASB on a range of issues, from the IASB work program for developing new IFRSs, to giving practical advice on the implementation of particular standards.
IFRS Interpretation Committee	The IFRS IC provides guidance on specific practical issues in the interpretation of IFRSs.
ISSB **可持续发展委员会（新增）**	The ISSB is responsible for developing a set of sustainability disclosure standards – "Sustainability Disclosure Standards". The intention of ISSB is to deliver a comprehensive global baseline of standards for sustainability-related disclosures. The standards are to provide investors with information about the companies' sustainability-related risks and opportunities. The ISSB issued its first two IFRS Sustainability Disclosure Standards in June 2023: IFRS S1: General Requirement for Disclosure of Sustainability-related Financial information IFRS S2: Climate-related Disclosures

Advantages of IFRS：

(a) Greater international consistency and comparability of financial statements 提高了财报的一致性和可比性（但国际会计准则的使用并不具有强制性，并非所有上市公司都需使用）

(b) Facilities cross- border investment 有利益跨国投资

(c) Greater control over, and understanding of, foreign operations 更有利于理解海外经营业

(d) Consolidation of foreign operations using IFRS Accounting Standards is easier 利于海外企业合并报表的编制

Disadvantages of IFRS:

(a) IFRS Accounting Standards may not meet local needs 不满足具体国家需求，并且不适用于所有企业类型

(b) Loss of control and independence 使用执行的成本高

(c) Interference and conflicts with national and regional law 个别内容与本国准则不一致

3. IFRS S1【新增】

3.1 Objective

The objective of IFRS S1 is to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to investors when making decisions.

3.2 Scope

An entity may apply IFRS S1 irrespective whether they prepare their financial statements in accordance with IFRS Accounting Standards or other generally accepted accounting principles.

3.3 Core content

IFRS S1 requires a company to disclose how it manages its sustainability-related risks and opportunities under four headings:

- Governance
- Strategy
- Risk management
- Metrics and targets

Category	Disclosure contents 【了解即可，不用背】
Governance	Governance processes used to monitor sustainability related risks and opportunities. 需要披露企业治理指用于监控可持续性相关风险和机遇的治理流程，例如关于高管层可持续性监督小组和报告的信息、关于监控风险和机遇总体责任委托的详细信息、高管可持续性会议的频率以及任何与可持续性相关的高管活动。

Strategy	The approach the entity uses to manage sustainability related risks and opportunities. 披露可持续发展相关风险和机遇的政策方法，例如识别可持续发展相关的风险和机遇，企业为减轻风险和利用这些机遇而采用的策略，风险和机遇带来的财务影响，可持续发展相关风险对财务计划、预测和预算的影响，以及对企业对可持续发展风险的弹性/敏感性的评估。
Risk management	The processes the entity uses to identify, assess and monitor sustainability related risks and opportunities. 披露在风险管理体现在用于识别、评估、优先考虑和监测可持续性相关风险和机遇的过程，例如风险评估中使用的数据来源、用于评估风险敞口的任何情景分析、如何识别风险影响的性质、概率和程度。
Metrics and targets	The entity's performance in relation to sustainability related risks and opportunities, including progress towards any targets the entity has set or is required to meet by law or regulation. 披露企业在可持续发展相关风险和机遇方面的表现，包括在企业已设定或法律或法规要求实现的任何目标方面的进展，例如用于可持续发展研究的收入百分比、可再生能源使用百分比、可回收包装百分比、使用的公平贸易供应商百分比。

4. Due process 准则颁布流程

Step 1: Consultant with advisory council (咨询委员会）

Step 2: Develop a discussion paper (文字讨论手稿）

Step 3: Develop exposure draft (施行草稿）

Step 4: Conduct a post- implementation review（收集草稿试用反馈意见）

Step 5: Issue final IFRS （正式准则出台）

5. Not-for-profit and public sector entities【考过几次】

The main aims of not-for-profit and public sector entities are very different to those of profit-orientated entities:

非营利性机构	营利性机构
Financial aim is to achieve value for money and provide service.	Financial aim is to make profit and increase shareholder wealth
Managers are accountable to trustees / government / public.	Directors are accountable to shareholders.
Finance limited to donations / government subsidies.	External finance freely available in the form of loans and share capital.

【注意】

非营利性机构以及社会机构的主要目的不是为股东赚钱，而是服务社会提供支持，所以衡量此机构的标准是三个 “E”：

- Economy：costs of resources used and the output obtained（Inputs）
- Efficiency：how is the work completed（outputs）
- Effectiveness：what is achieved（results）

同时也会用 Key performance indicators（KPI）来衡量非营利机构的表现，例如医院的KPI包括 Percentage of patients treated successfully and level of skilled staff in the department

☑ 考点：

Non-for-profit 需要计算的ratio包括：

① Current and Quick ratio
② Inventory holding period
③ Receivable collection period
④ Payable payment period
⑤ Gearings

Non-for- profit不需要计算的ratio：

① Gross profit margin
② Operating profit margin
③ Return on capital employed
④ EPS

【经典例题】

1. 2025年3月模拟卷

What is the primary objective of IFRS S1 General Requirements for Disclosure of Sustainability - related Financial Information?

A. To mandate the entities to focus on short-term financial risks and opportunities
B. To enhance the environmental conservation impact of entities by disclosing their efforts for climate action
C. To encourage short-term profit maximization of investors and create value for shareholders
D. To ensure that entities disclose information about sustainability - related risks and opportunities useful for making decisions on providing resources to the entity

2. 2025年3月真题

Which of the following areas do entities need to provide disclosures on according to IFRS S1 General Requirement for Disclosure of Sustainability-related Financial Information?

1. Governance
2. Strategy
3. Risk management
4. Metrics and target

A. 1 and 2 only
B. 2 and 3 only
C. 2, 3 and 4 only
D. All of the above

Answer: D, D

第四章 资产类准则

- IAS 16 Property, plant and equipment
- IAS 38 Intangible assets
- IAS 40 Investment property
- IAS 36 Impairment of assets
- IAS 23 Borrowing costs
- IAS 2 Inventory
- IFRS 5 Non-current assets held for sale and discontinued operation
- IAS 41 Agriculture

高顿教育 GOLDEN EDUCATION
APPROVED ACCA LEARNING PARTNER ONLINE DELIVERY - PLATINUM

IAS 16 Property, plant and equipment

1. Definition and recognition

1.1 Definition

Property, plant and equipment are tangible assets that:

- are held for use in the production or supply of goods or services, for administrative purposes, and
- are expected to be used during more than one accounting period

1.2 Recognition

Items of property, plant, and equipment should be recognized as assets when it is probable that:

① It is **probable** that the future economic benefits associated with the asset will flow to the entity

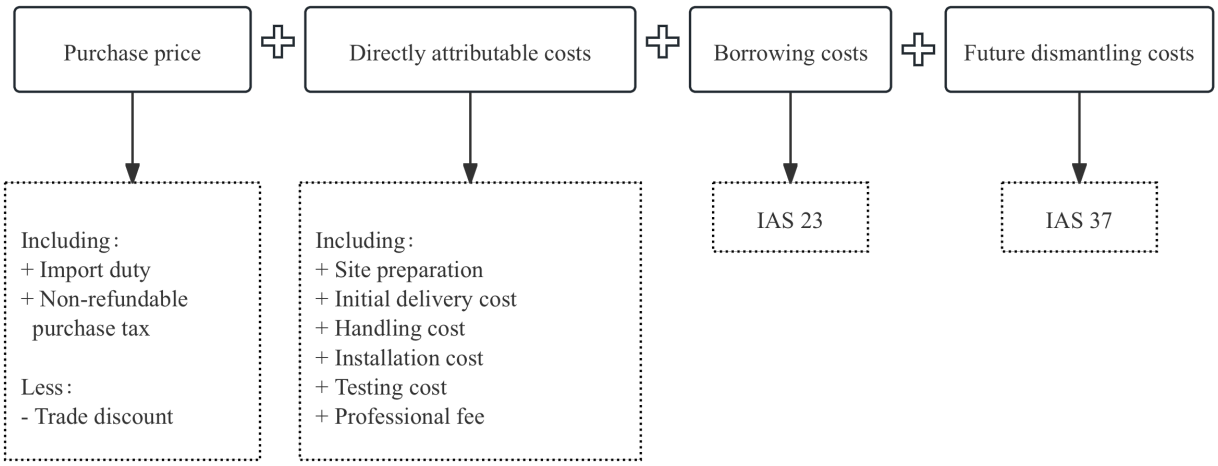

② The cost of the asset can be **measured reliably**

高顿教育 GOLDEN EDUCATION
APPROVED ACCA LEARNING PARTNER ONLINE DELIVERY - PLATINUM

2. Initial measurement

IAS 16 requires PPE initially measured at cost.

Cost is all necessary costs involved in bringing the asset into working condition including cost of purchase, directly attributable cost etc.

Cost excludes:

- Unused material
- Initial operating losses before asset reaches planned performance 启动成本费用化
- Staff training
- Maintenance or warranty
- Marketing cost
- Administrative overheads

注意：测试阶段产生的产品若出售，收入属于经营活动分类中的other operating income

3. Depreciation

Deprecation is the allocation of cost of assets over its useful life. Land has no finite life, therefore excluded from depreciation

Straight-line method	Reducing balance method
$\frac{\text{Cost - residual value}}{\text{Useful life}}$	NBV（期初）✖%
（Cost - residual value）✖%	Net Book Value = Cost - Accumulated depreciation

Example 1:

PPE's cost is $9,000

Useful life is 3 years

Cost	Deprecation	Accumulated depreciation	NBV
9,000	9,000/3 = 3,000	3,000	6,000
9,000	9,000/3 = 3,000	6,000	3,000
9,000	9,000/3 = 3,000	9,000	-

Example 2:

PPE's cost is $9,000

Its depreciate at 20% per annual using reducing balance method

Cost	Deprecation	Accumulated depreciation	NBV
9,000	9,000 * 20% = 1,800	1,800	7,200
9,000	7,200 * 20% = 1,440	3,240	5,760

☑ 考点:

- 折旧费用属于经营活动分类，具体费用分类见大题材料要求。
- 企业应该在资产达到预计可使用状态时开始折旧，资产报废或处置时终止折旧，过程中即便资产处于闲置状态也需要正常折旧，除非转为"固定资产持有待售"满足IFRS 5确认条件。
- 残余价值，使用寿命和折旧方法需要至少每年年底进行一次回顾检查，如果发生改变，需要用变更当日资产剩余的账面价值，计算后续折旧。
- 如果资产每个部件的成本与该资产的总成本相比是重大的，则该部件需要单独折旧。
- 每一期间的折旧费用应确认在利润表中，除非将折旧包含在其他资产价值中。

4. Subsequent measurement

IAS 16 Permits two accounting methods as subsequent measurement:

Cost model	**Revaluation model**
Carry the asset at its historical cost less: - depreciation and - any accumulated impairment loss (IAS 36)	Carry the asset at a revalued amount, being its fair value at the date of the revaluation less: - depreciation and - any accumulated impairment loss (IAS 36) 注意: The IAS 16 makes clear that the revaluation model is available only if the fair value of the item can be measured reliably.

4.1 Revaluation upwards

Dr PPE

Cr Revaluation gain（OCI/RS）

Statement of profit or loss and other comprehensive income	
SPL	
OCI:	
Revaluation gain	50

→

Statement of financial position	
Assets	
Equity:	
Revaluation surplus	50
Liability	

4.2 Revaluation downwards

Dr Revaluation loss（SPL）

Cr PPE

Statement of profit or loss and other comprehensive income	
SPL	
Revaluation loss	(50)
OCI	

【重估法注意事项】

① 重估频率：Revaluations must subsequently be made with sufficient **regularity** to ensure that the carrying amount does not differ materially from the fair value.

② 重估要求：When an item of property, plant and equipment is revalued, the **entire** class of assets to which the item belongs must be revalued.

③ **Revaluation gains** are credited to OCI and then transfer to equity as revaluation surplus. 重估增值先记入OCI，然后再结转成为equity中的重估盈余RS

④ **Revaluation loss** should be recognized as an expense to profit and loss. 重估减值需要立即确认到SPL中作为亏损费用（属于经营活动分类，具体费用分类见大题材料要求）

⑤ **列示要求**：Revaluation gain and revaluation loss cannot be offset

⑥ **重估回转**：The gain reverses a previous revaluation loss（SPL：expense）of the same asset previously，in which case it should be recognized in profit or loss as income（SPL：income）就同一资产而言，该增值中相当于回转以前确认为重估减值的部分，应该确认为收益

⑦ **重估后折旧**：Depreciation must charge, based on revalued amount, over remaining useful life 重估后的资产折旧需要以重估后的资产价值即公允价值来计算

⑧ **多余折旧转移**：Make annual transfer from revaluation surplus to retained earnings for excess depreciation 如果题目要求，我们需要在重估后的每一年转移多余折旧，从RS转移到RE中去：

Dr Revaluation surplus X
Cr Retained earnings X

【注意】多余折旧的转移是选做的，如果题目要求我们再做，如果题目没有要求则默认不做

4. Subsequent expenditure

Capital expenditure	Revenue expenditure
Subsequent expenditure on property, plant and equipment should only be capitalized if it **improves** the asset beyond its originally assessed standard of performance. E.g. - Upgrade cost - Complex assets's major overhaul or safety check	All other expenditure incurred to **maintain** the economic benefits originally expected should be expensed in statement of profit or loss. E.g. - Repair cost - Cleaning cost - Repainting cost

5. Disposal

SPL	SOFP
Profit or loss on disposal = Proceeds - carrying amount 注意：处置PPE盈亏属于经营活动分类，具体费用分类见大题材料要求	Transfer remaining RS to RE

Dr Cash Dr/Cr Gain or loss（SPL） Cr PPE	Dr Revaluation surplus Cr Retained earnings

☑ 划重点：

- 达到预计使用状态（ready for use）开始折旧，不是使用再折旧
- 过程中即使短暂闲置也要折旧，除非资产报废处置或转为持有待售资产（满足条件）则可以停止折旧
- 残值，寿命，折旧方法每年回顾一遍，一旦改编则用剩余的NBV计算今后的折旧
- 并不是每年重估，而是看FV是否发生重大变化
- 一个资产重估，同类资产一起重估
- 不同资产各自的增减值不可相互抵消（cannot offsetting）

【经典例题】

Elite Co is a private limited liability company that operates a single cruise ship. The ship was acquired on 1 October 20W6 (ten years before 20X6). Details of the cost of the ship's components and the basis on which they are depreciated is as follows：

Component	Original cost	Depreciation basis
	$'m	
Ship's fabric	300	25 years straight -line
Cabins and entertainment area fittings	150	12 years straight-line
Propulsion system	100	Useful life of 40,000 hours

The propulsion system has been used for 30,000 hours at 30 September 20X4. Due to the unreliability of the system, a decision was taken in early October 20X4 to replace the whole of the propulsion system at a cost of $140m. The useful life of the new propulsion system was 50,000 hours and in the year ended 30 September 20X5 the ship had used the system for 5,000 hours.

At the same time as the propulsion system replacement, Elite Co took the opportunity to do a limited upgrade to the facilities at a cost of $60m and repaint the ship's fabric at a cost of $20m.

1. **At 30 September 20X4 the ship is eight years old. What is the carrying amount of the ship at date date?**
   A. $279m
   B. $275m
   C. $229m
   D. $254m

2. **What is the amount of depreciation charge in relation to the propulsion system for the year ended 30 September 20X5?**
   A. $14m
   B. $39m
   C. $17.5m
   D. $16.5m

3. **Apart from depreciation, what is the charge to profit or loss for the year ended 30 September 20X5?**
   A. $20m
   B. $25m
   C. $45m
   D. $40m

4. **Elite Co's ship has to have a safety check carried out every five years at a cost of $50,000 in order to be licensed to operate. How should this be accounted for?**
   A. Set up a provision for this discounted present value and unwind over five years
   B. Accrue the cost of the check over five years until it takes place
   C. Charge $50,000 to profit or loss when incurred
   D. Capitalize the cost when incurred and amortize over five years

Answer: A A C D

IAS 38 Intangible assets

1. Definition

1.1 Definition

An intangible asset is an identifiable non-monetary asset without physical substance.

1.2 Identifiable:

- **"Separable"** 可分离的，即能够从主体中分离或划分出来，并能单独或与相关资产一起使用，可以出售，转移，租赁或交换，不论主体是否有意进行这些交易，或者；
- Arises from contractual or other **legal rights** 源自合同或其他法定权利

2. Recognition

① Identifiable
② Controlled assets
③ It is **probable** that the expected economic benefits that are attributable to the asset will flow to the entity
④ The cost of the asset can be measured **reliably**

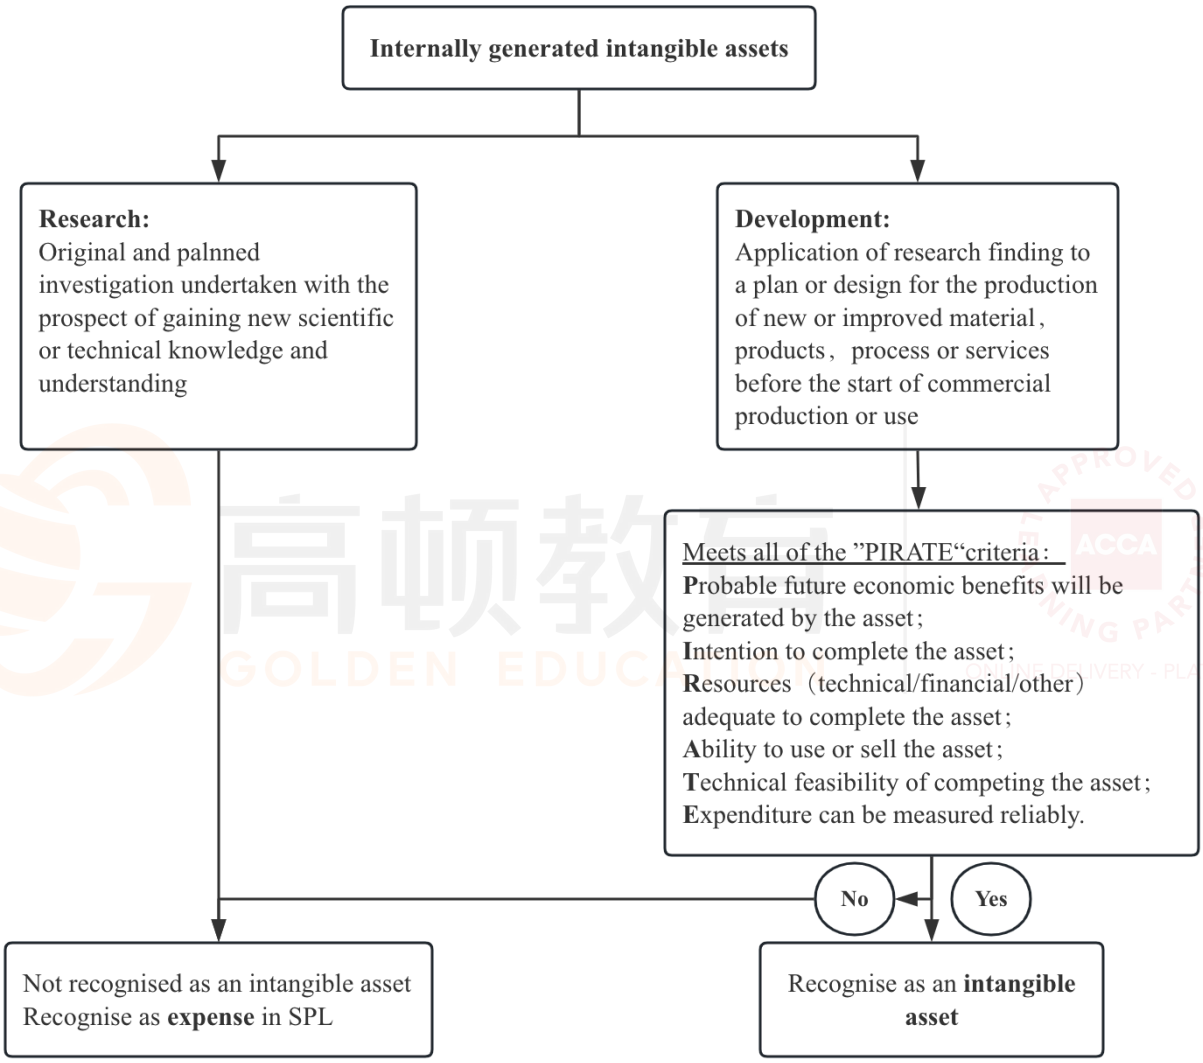

3. Accounting treatment

3.1 External purchased

The recognition criteria are always presumed to have been met for intangible assets that are acquired separately or acquired as part of a business combination. Therefore can be recognized as intangible asset in the statement of financial position.

3.2 Internal generated

Internally generated brands, mastheads, publishing titles, customer lists and similar items cannot be recognized as intangible assets. Expenditure on these times should be recognized as expense when its incurred

☑ 考点：

研发费用（资本化条件不满足需要费用化）在利润表中需要单独列示（经营活动分类），属于金额较大且一次性费用，不能与其他费用合并记录。

4. Initial measurement

External purchase：measured at cost

Internal development：measured at sum total of capital expenditure

5. Subsequent measurement

- Cost model
- Revaluation model

☑ 考点：无形资产后续计量的选择不一定要与PPE保持一致，企业可以按实际情况选择成本法或重估法计量其无形资产。理论上，无形资产后续计量可以使用重估法，但前提是存在活跃市场，可以获得公允价值，如果不存在活跃市场，无形资产只能用成本法计量。

6. Amortization

The amortization of an intangible asset with a finite useful life shall be allocated over its useful life.

☑ 考点：According to IAS 38, the amortization method should reflect the expected pattern of consumption of the expected future economic benefits embodied in an intangible asset. 根据国际会计准则第38号，无形资产摊销方法应反映无形资产的预期未来经济利益的消耗模式，考试中绝大多数使用直线摊销法。

Finite useful life	Indefinite useful life
Straight-line method: = Cost ÷ useful life = Cost ✕ % 注意：无形资产没有残余价值 **Double- entry**: Dr Amortization expense（SPL） Cr Accumulated amortization **SOFP**: **NBV = Cost - accumulated amortization** • The useful life and the amortization method for an intangible asset with a finite useful life shall be reviewed at least at each year end	• An intangible asset with an indefinite useful life **shall not** be amortized • The useful life of an intangible asset that is not being amortized shall be **reviewed each** year end • Should be **tested for impairment** at every year end

☑ 划重点：

- 无形资产开始使用再摊销
- 寿命需要每年回顾一遍（考过文字判断）
- 有明确寿命按寿命摊销，没有明确寿命不摊销
- 无形资产可以重估，但前提是要有活跃市场计算FV（考过文字判断）
- 无形资产的后续计量不必和PPE的后续计量保持一致（考过文字判断）
- 处置无形资产盈亏属于经营活动分类

【经典例题】

1. 2020年3月考官报告

Indicates which of the options below should be recognized as intangible assets by dragging and dropping the appropriate options into the grey targets boxes.

Options		Intangible assets
Brandname developed by New Designs Co worth $10m	$2m spent on an advertising campaign expected to increase revenue by $20m	
$2.5m spent on new equipment to develop a new successful products	$3m paid to acquire the brand name Fast Design	
$3m spent on a licence to operate a production facility for six years	$1m spent on the construction of a product prototype before its launch	
$1.5m spent on training customer service staff expected to increase revenue by $5m	$2m paid as goodwill when acquiring Unique Co	

2. Assoria Co had $20m of capitalized development expenditure at cost brought forward at 1 October 20X7 in respect of products currently in production and a new project began on the same date.The research stage of the new project lasted until 31 December 20X7 and incurred $1.4m of costs. From that date the project incurred development costs of $0.8m per month. On 1 April 20X8 the director of A Co became confident that the project development at 30 September 20X8. Capitalized development expenditure is amortized at 20% per annum using the straight line method.

What amount will be charged to profit or loss for the year ended 30 September 20X8 in respect of research and development costs?

A. $8,280,000

B. $6,880,000

C. $7,800,000

D. $3,800,000

APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

Answer:

左3，右2，3，4

C

IAS 40 Investment property

1. Definition and recognition

1.1 Definition

Investment property is property held to earn rentals or for capital appreciation or both

☑ 投资性房地产常见例子：

- Land held for long-term capital appreciation
- **Land** held for a currently **undetermined future use** 没有决定用途的土地属于投资性房地产
- A building that is vacant and is held to be leased out
- Property that is being constructed for future use as investment property

O 以下不属于投资性房地产：

- Property intended for sale in the ordinary course of business
- Property being constructed on behalf of third parties
- Owner-occupied property including property held for future use as owner-occupied property

1.2 Recognition

① it is probable that the future economic benefits that are associated with the investment property will flow to the entity

② The cost of the investment property can be measured reliably.

2. Measurement

2.1 Initial measurement

Investment property is measured initially at cost, including:

- Purchase price
- Property transfer tax
- Transaction cost
- Professional fee

2.2 Subsequent measurement

IAS 40 permits entities to choose between:

Fair value model	Cost model(=IAS 16)
Investment property is measured at fair value at the end of reporting period: - any gain or loss is included in the statement of profit or loss（投资活动分类） - the investment property in not depreciated	Carry the asset at its historical cost less: - depreciation（投资活动分类） - any accumulated impairment loss (IAS 36)

☑ 考点：本准则允许企业在两种方法下任选其一：

① 公允价值法。在该方法下，投资性房地产在初始计量后以公允价值计量，公允价值变动确认进当期损益SPL，属于投资活动分类。

② 成本法。该方法由《IAS 16》予以规定，采用成本法要求投资性房地产在初始计量后采用折余成本（累计折旧后剩余的净账面价值）予以计量，且折旧费用属于投资活动分类。

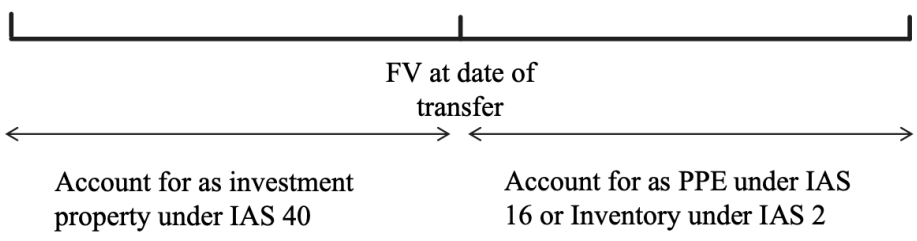

- 本准则要求企业对于其全部投资性房地产都采用统一选定的计量方法来计量。
- 当公允价值无法确定时，企业需采用成本法计量。
- 公允价值法不需要计提折旧。

3. Reclassification / Transfer

Transfer to or from, investment property should only be made when there is a change in use.

需要注意的是，考官很喜欢考察转入投资性房地产，或转出成为投资性房地产，大家记住，一旦在读材料看到有关重大决定的字眼，比如企业决定把办公大楼出租，或者闲置，则证明资产的用途发生改变。一旦用途改变，计量准则也就发生改变。

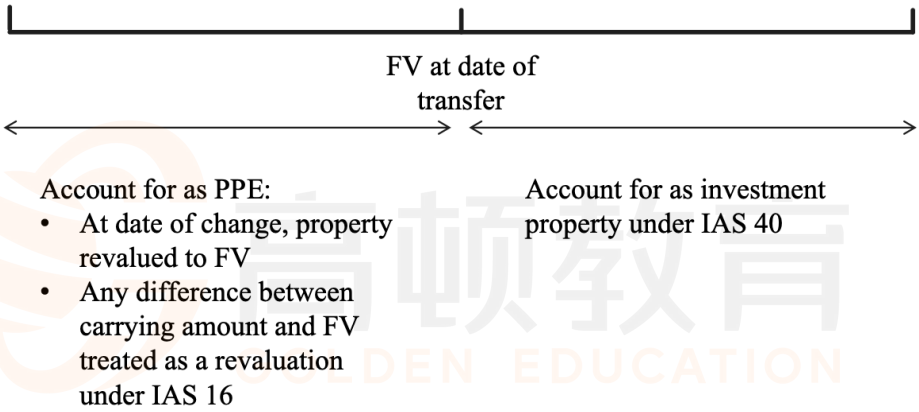

3.1 投资性房地产转为PPE

Step 1: 在转换日对投资性房地产进行最后一次FV调整，变化金额记入当期损益SPL

Step 2: 调整到FV之后再更换成PPE（FV即Cost），后续开始计提折旧

3.2 PPE转为投资性房地产

Step 1: 在转换日对PPE进行最后一次重估，重估增值记OCI/RS，重估减值记SPL

Step 2: 重估到FV之后转成investment property ，转换后停止折旧，后续FV变化记入SPL

☑ 划重点：

- 投资性房地产处置时也需要计算处置盈亏：

  Profit or loss on disposal = proceeds - carrying amount

  需要注意的是，投资性房地产处置盈亏属于“投资活动”分类。
- 投资性房地产后续计量首选FV model
- 投资性房地产增值或减值都记入SPL，属于投资活动分类
- 投资性房地产不折旧，即使有使用寿命也不折旧（考过改错题）
- 一个投资性房地产选择FV model，则所有投资性房地产都需要选择FV model计量
- 一部分投资性房地产，一部分为自用资产PPE，如果两部分能分开出售，则需要拆分计量；如果不能分开出售，当自用资产PPE不占重要组成部分时，整个资产按投资性房地产处理（2024年3月考过文字判断）

【经典例题】

1. 2023年6月模拟卷

Which of the following is an investment property under IAS 40 Investment property?

A. A building that is vacant but held to be rented to third parties
B. Property under construction on behalf of third parties
C. Property that is available for sale in the ordinary course of business
D. Owner- occupied property

2. 2025年3月模拟卷

Which of the following statements is correct regarding investment property?

A. The investment property may be held as owner occupied property or a property held for sale in future
B. An owned investment property shall be measured initially at its fair value
C. An investment property may be subsequently measured using cost model or fair value model
D. Investment property must be depreciated regardless of whether an entity choose cost model or fair value model for subsequent measurement

3. Carter Co vacated its head office building and let it out to a third party on 30 June 20X8. The building had an original cost of $900,000 on 1 January 20X0 and was being depreciated over 50 years. It was judged to have a fair value on 30 June 20X8 of $950,000. At the year-end date of 31 December 20X8 the fair value of the building was estimated at $1.2m.

What amount will be shown in revaluation surplus at 31 December 20X8 in respect of the building?

$_____

Answer：A，C 203000

IAS 36 Impairment of assets

适用于：

IAS 16 PPE

IAS 38 Intangible assets

IAS 40 Investment property（cost model only）

注意：IAS 36 的减值与之前IAS 16中的减值无本质区别，处理方式也相同，只是发生的阶段不同。IAS 16 中的减值发生在后续计量阶段，而IAS 36的减值可以发生在任一时间点，但有前提条件，即减值迹象的出现。

1. Indicators of impairment

Internal indicators	External indicators
① 明显过时陈旧或损坏 Obsolescence or damage ② 用途发生重大变化 Significant changes with an adverse effect in the extent to which, or manner in which, an asset is used or is expected to be used ③ 经济绩效下降 Economic performance and expected net cashflows of an asset are worse than expected ④ 已经或将要出售 The asset is already or will be disposed	① 市价大幅下跌 Decline in asset's market value ② 技术，市场，经济或法律等因素对资产产生负面影响 Adverse effect in the technological, market, economic or legal environment in which the enterprise operates 【PESTEL】 ③ 市场利息率提高 Increase in market interest rates ④ 企业净资产账面价值大于市场资本化金额即股票市值 Carrying amount of net assess of the entity exceeds market capitalization【share price】

☑ 高频考点：有两类资产需要每年年底进行减值测试，即便没有减值迹象出现：

Even if there are no indications of impairment, the following assets must always be **tested for impairment annually**:

① An intangible asset with an **indefinite useful life**

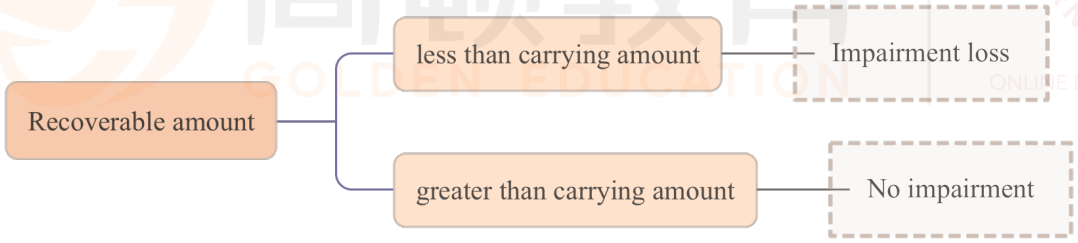

② **Goodwill** acquired in a business combination

2. Impairment test / review

2.1 Impairment test【背过】

An asset has been impaired if its carrying amount exceeds its recoverable amount. Recoverable amount is the greater of fair value less cost to sell and Value in use（future cash flows generated by the asset discounted at interest rate which allows for the risks specific to the asset）

- ☑ 考点：减值损失应确认在当期损益SPL中，属于经营活动分类，除非按照另一准则《IAS 16》资产在过去以重估法计量，且产生重估盈余，那么减值损失应作为重估盈余抵减处理。
- ☑ 如果recoverable amount大于carrying amount 则资产没有减值，无需任何处理

3. Cash-generating unit

3.1 Definition【背过】

CGU is the smallest identifiable group of assets for which independent cash flows can be identified and measured

- ☑ 考点：It may not be possible to estimate the recoverable amount of an individual asset. Any entity must therefore determine the recoverable amount of the CGU to which the asset belongs. 如果资产存在减值迹象，企业应估计单项资产的可回收金额，如果无法估计单项资产的使用价值，企业应确定资产所属的现金产出单元的可回收金额。

3.2 Allocation of impairment losses for a CGU

The impairment loss is allocated to reduce the carrying amount of the assets of the unit in the following order：

① to any assets that are obviously damaged or destroyed
② to any goodwill

③ to the remaining assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit

【解释】

在对现金产出单元资产进行减值损失分摊时，应明确分摊顺序：先对明确减值的资产进行减值处理；其次抵减商誉价值；最后，根据剩余资产的账面价值金额，按比例分摊剩余减值损失，进行减值处理。需要注意的是，流动资产不参与此减值损失的分摊

4. Reversal of previous impairment loss

An impairment loss recognised for an asset in prior years should be recovered only if there has been a change in the estimate used to determine the asset's recoverable amount.

The asset cannot be revalued to a carrying amount that is higher than what it would have been the asset had not been impaired originally, ie its depreciated historical cost had the impairment not taken place.

☑ 回转条件: 当现在的可回收金额较之前计算金额相比增加时，企业可以回转之前确认的减值损失

☑ 回转上限: 回转后的资产价值不可以超过历史折旧金额，即净账面价值NBV

☑ 注意：Impairment on goodwill can never be reversed 商誉减值不可回转

☑ 划重点：

- 资产减值：Recoverable amount < Carrying amount（确认减值损失SPL）
- 资产没有减值：Recoverable amount > Carrying amount（资产没有减值，其差值无需调整，直接忽略）考过文字判断
- 两类资产哪怕没有减值迹象，也要每年做减值测试：（考过很多次文字判断）

① Goodwill

② Intangible asset with indefinite useful life

【经典例题】

1. Riley Co acquired a non-current asset on 1 October 20W9 (ten years before 20X9) at a cost of $100,000 which had a useful life of ten years and a nil residual value. The asset had been correctly depreciated up to 30 September 20X4. At that date the asset was damaged and an impairment review was performed. On 30 September 20X4, the fair value of the asset less cost to sell was $30,000 and the expected future cash flows were $8,500 per annum for the next five years. The current cost of capital is 10% and a five-year annuity of $1 per annum at 10% would have a present value of $3.79.

   What amount would be charged to profit or loss for the impairment of this asset for the year ended 30 September 20X4?

   A. $17,785
   B. $20,000
   C. $30,000
   D. $32,215

高顿教育 GOLDEN EDUCATION
APPROVED ACCA LEARNING PARTNER ONLINE DELIVERY - PLATINUM

补充：Annuity

1	8,500 * $1/1.1^1$	= 8,500 * 0.91	8,500 * 3.75 annuity
2	8,500 * $1/1.1^2$	= 8,500 * 0.83	
3	8,500 * $1/1.1^3$	= 8,500 * 0.75	
4	8,500 * $1/1.1^4$	= 8,500 * 0.64	
5	8,500 * $1/1.1^5$	= 8,500 * 0.62	

2. A business which comprises a single cash-generating unit has the following assets:

	$'m
Goodwill	3
Patent	5
Property	10
Plant and equipment	15
Current assets	2
	35

Following an impairment review it is estimated that the value of the patent is $2m and the recoverable amount of the business is $24m.

What will be the carrying amount of the property after the impairment loss has been recognized?

A. $8m
B. $10m
C. $7m
D. $5m

3. A cash-generating unit comprises the following assets:

	$'000
Plant and equipment	200
Goodwill	90
Building	700
Current assets	20
	1,010

One of the machines, carried at $40,000, is damaged and will have to be scrapped. The recoverable amount of the CGU is estimated at $750,000.

What will be the carrying amount of the building after the impairment loss has been recognized?

A. $597,000
B. $577,000
C. $594,000
D. $548,000

Answer: A A C

IAS 23 Borrowing costs

1. Qualifying condition

① **Qualifying assets**：takes a substantial period of time to get ready for its intended use 需要经过相当长时间才能达到预计可使用或可出售状态的资产

② The borrowing cost must be unavoidable

③ There must be direct relationship between qualifying asset and borrowing amount

2. Qualifying period

2.1 资本化期间起始日期：【符合以下所有条件的日期开始资本化】

① Expenditure for the asset is being incurred; 发生支出

② Borrowing costs are being incurred; 发生借款成本利息

③ Activities that are necessary to prepare the asset for its intended use or sale are in progress. 已开展准备活动

2.2 资本化期间截止日期：【二选最早日期】

① Once substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. 已结束相关建造活动

② Repayment of the borrowing 已还款

2.3 资本化暂停：【停工期利息】

Dr Interest expense（SPL） X

Cr Cash X

在现行开发活动发生中断时，企业应暂停借款成本的资本化，期间的利息需要费用化记入SPL

☑ 考点：在资本化期间产生投资收益：企业在计算资本化金额时，应减去闲置借款进行的临时性投资收益

☑ 不处于资本化期间的投资收益：确认在当期损益中SPL，属于投资活动分类

3. Qualifying interest rate

① **专项借款**：Borrowings specifically made to acquire a qualifying asset【使用专项利率】

② **普通借款**：Funds for the project taken from borrowings generally【使用加权平均利率】

【经典例题】

1. Fido Co has the following loans in place throughout the year ended 31 December 20X8 which constitute its general borrowings for the period.

10% bank loan $140m
8% bank loan $200m

On 1 July 20X8 $50m was drawn down for construction of a qualifying asset which was completed during 20X9.

What amount should be capitalized as borrowing costs at 31 December 20X8 in respect of this case?

A. $5.6m
B. $2.8m
C. $4.4m
D. $2.2m

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

2. 2024年6月模拟卷

Beta Co began construction of its new factory building on 1 March 20X3. The cost of the construction was estimated at $1.5 million.The company borrowed $800,000 from a local bank on 1 July 20X3 at the interest rate of 6% pa. The construction completed on 30 November 20X4. Beta had temporarily invested $350,000 of the borrowed amount from 1 July 20X3 to 31 December 20X3 at 4.5% pa.

What would be the amount of borrowing cost to be capitalised in respect of the factory building according to IAS 23 Borrowing Costs?

A. $68,000
B. $84,000
C. $60,125
D. $13,125

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

Answer：D，C

IAS 2 Inventory

1. Definition

Inventories are assets:

- held for sale in the ordinary course of business
- in the process of production for such sale
- in the form of materials or suppliers to be consumed in the production process or in the rendering of service.

Types of inventory:

- Goods purchased
- Finished goods produced
- Work in progress
- Raw material

2. Measurement

Inventory should be measured at the lower of **cost** and **net realizable value**.

2.1 Cost

Cost =	Cost of purchase	+	Cost of conversion	+	Others
	• Purchase price • Import duties • Carriage inward • Handling cost		• Direct cost (material and labour) • Fixed and variable overheads: ① Indirect cost (material and labour) ② Factory depreciation ③ Supervisors wages ④ Storage cost and carriage cost (raw material and WIP)		• Design cost

【存货成本不包括】

① Abnormal loss
② Storage cost of finished goods
③ Carriage outward
④ Administrative overhead
⑤ Selling cost

☑ 考点：Fixed production overheads should be allocated to units of production based on a normal level of activities under absorption costing. Interchangeable items, following estimation techniques can be used：

- FIFO
- Weighted average cost
- LIFO is not allowed under IAS 2 不允许使用

☑ 考点：FIFO对比AVCO

	FIFO	AVCO
Closing inventory	高	低
Cost of sales	低	高
Profit	高	低

如果企业将FIFO更改为AVCO，调整分录【背过】：

Dr Cost of sales X
Cr Closing inventory X

2.2 Net realizable value

NRV is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale：

Estimated selling price	X
Less：Cost to completion	(X)
Less：Selling cost	(X)
Net realizable value	X

The NRV may be less than cost due to：

- Errors in production and purchase
- An increase in cost
- Fall in selling price
- Obsolescence of products

当存货减值，减值金额需要确认在当期损益中【背过】：

Dr Cost of sales X
Cr Closing inventory X

3. Cost of sales

Opening inventory	X
Add: purchase	X
Less: closing inventory	(X)
Cost of sales	X

4. Gross profit percentage

Gross profit margin =	$\frac{\text{Gross profit}}{\text{Sales}}$ * 100%
Mark up =	$\frac{\text{Gross profit}}{\text{Cost of sales}}$ * 100%

【经典例题】

1. 2020年12月考官报告

At 31 December 20X4, Litch Co had, in inventory, 100 items of work in progress which had cost $14,900 to produce. It estimated that work in progress would cost $13 per unit to complete, and that each unit would then sell for $166.

Direct selling costs are estimated at 2% of revenue.

In accordance with IAS 2 Inventory, what is the correct value of Litch Co's inventory as at 31 December 20X4?

A. $14,900
B. $16,268
C. $16,200
D. $14,968

2. 2023年12月考官报告

At March 20X3，Algernon Co had equipment in its inventory which was manufactured to a customer's specific requirement and had originally cost $380,000.

The selling price had been agreed as $420,000 but new regulations mean that safety measures must be added at a cost of $60,000 before the equipment may be sold. The customer has agreed to pay for half of these modification costs through an increase in the overall selling price.

In accordance with IAS 2，what is the value of these inventories to be presented in the statement of financial position as at 31 March 20X3?

A. $380,000
B. $390,000
C. $410,000
D. $440,000

3. 2024年12月模拟卷

Indicate, for each of the items listed below, whether the expenditure should be included in the cost of inventory or recognised in profit or loss, in accordance with IAS 2 Inventories.

An allocation of fixed production overheads based on normal capacity	Included in cost	Recognised in profit or loss
Abnormal amounts of wasted materials	Included in cost	Recognised in profit or loss
Costs of storage after completion of inventories and before sale	Included in cost	Recognised in profit or loss

Answer：A，A，Included，Recognised，Recognised

IFRS 5 Non-Current assets held for sale and discontinued operation

1. Non-Current Assets Held For Sale

1.1 Definition

Non- current asset held for sale	This term refers to a non-current asset whose carrying amount will be recovered principally through a sale transaction rather than through continuing use.
Disposal group	A group of assets to be disposed of, by sale or otherwise, together as a group in a single transaction, and liabilities directly associated with those assets that will be transferred in the transaction. In practice a disposal group could be a subsidiary, a cash- generating unit or a single operation within an entity.

1.2 Recognition【背过】

① the asset must be available for immediate sale in its present condition

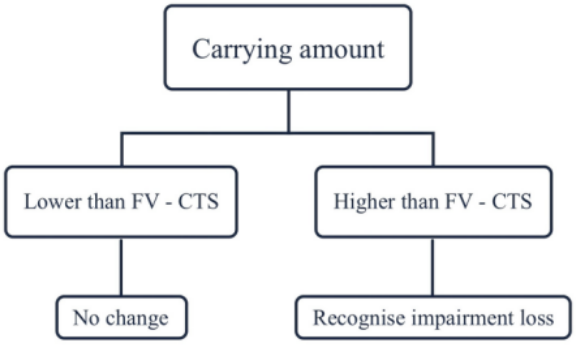

② the sale must be "highly probable" :

- management are committed to a plan to sell the asset
- the price is reasonable
- there is an active program to locate a buyer
- the sale is expected to be completed within 12 months of its classification as held for sale
- it is unlikely that the plan will be significantly changed or will be withdrawn.

1.3 Measurement

Non-current assets that qualify as held for sale should be measured at the **lower** of their **carrying amount** and **FV-CTS**【背过】

持有待售资产需要以账面价值和可变现金额两者中较低金额来计量，遵循谨慎性原则。当账面价值小于可变现金额时，资产仍以账面价值计量，未发生减值。当可变现金额小于账面价值时，资产以可变现金额计量，发生的减值损失确认在当期损益中SPL，属于经营活动分类。

同时在编制报表时，需要注意：

① Assets classified as held for sale must be **presented separately** on the face of the statement of financial position. 区别于其他资产单独列报

② Once a non-current asset has been classified as held for sale, it should cease to be depreciated /amortized 一旦归类为持有待售，资产停止折旧或摊销

2. Discontinued operation

2.1 Scope【背过】

A discontinued operation is a component of an enterprise that either has been disposed of, or is classified as held for sale 范围如下：

① a **separate major line** of business

② **geographical area** of operations

③ is part of a **single co-ordinated plan** to dispose of a separate major line of business or geographical area of operations

④ is a subsidiary acquired exclusively with a view to resale

2.2 Presentation

企业在编制报表时，需要在利润表中新增“停止经营”分类：

Statement of profit or loss and other comprehensive income for the year ended 31/12/2025

		$'000
Operating	Sales revenue	X
	Less: Cost of sales	(X)
	Gross profit 毛利润	**X**
	Add: Other operating income	X
	Less：Operating expense	
	Selling expense	(X)
	Research and development expense	(X)
	General administrative expense	(X)
	Other operating expense	(X)
	Operating profit 经营利润（新增）	**X**

Investing	Share of profit of associate	X
	Investment income	X
	Profit before financing and income tax 息税前利润	**X**
Financing	Interest expense from borrowing and lease liability	(X)
	Interest expense on provision	(X)
	Profit before income tax 税前利润	**X**
Income tax	Income tax expense	(X)
Discontinued	**Profit from continuing operation 持续经营净利润**	**X**
	Profit or loss from discontinued operation 停止经营净盈亏	**X/(X)**
	Profit 年终净利润	**X**
	Other comprehensive income:	
	Revaluation gain under revaluation model (netted off tax effect)	X
	Gain or loss of FVTOCI	X/(X)
	Total comprehensive income	**XX**

☑ 考点：利润表中 Profit or loss from discontinued operation包括：

① The profit or loss made by the discontinued operation

② The loss on classification as held for sale

③ The profit or loss on disposal of the net asset

需要注意，以上科目计算过程，以及停止经营今年产生的收入，成本，费用和利润需要披露在附注Notes中。

【经典例题】

1. 2014年12月真题

As at 30 September 2013 D company's property in its financial statements was:

Property at cost (useful life is 15 years) $45m

Accumulated depreciation $6m

On 1 April 2014, D decided to sell its property. The property its being marketed by a property agent at a price of $42m, which was considered a resealable achievable price at that date. The expected costs to sell have been agreed at $1m. Recent market transaction suggests hat actual selling price are 10% less than the original price. At 30 September 2014 the property has not been sold.

At what amount should the property be reported in financial statements as at 30 September 2014?

A. $36m
B. $37.5m
C. $36.8m
D. 42m

2. 2024年12月模拟卷

Greek Co, a company with a 31 December financial year end, decided to sell one of its buildings on 1 October 20X8 and immediately started to market it for sale at its fair value. A potential buyer has been found to purchase the building in its current condition.The building is ready for immediate transfer to the buyer as soon as price negotiations are complete and the sale is expected to take place in early 20X9.The following information is relevant to the building at 31 December 20X8.

Carrying amount at 1 October 20X8	$500,000
Fair value at 1 October 20X8	$525,000
Fair value at 31 December 20X8	$505,000
Costs to sell	$70,000

At what amount should the building be measured in Greek Co's statement of financial position at 31 December 20X8?

A. $500,000
B. $435,000
C. $505,000
D. $450,000

Answer：C B

IAS 41 Agriculture

1. Definition 【背过】

Biological assets	are living animals or plants
Bearer	animals or plants bear products for harvest eg dairy cattle, grapevine. (These assets should be accounted for under IAS 16) 属于IAS 16 准则分类，考过一次准则分类
Harvest	is the detachment of produce from a biological asset or the cessation of a biological asset's life processes 收获指农产品从生物资产上的分离，或生物资产的生长过程的结束
Agriculture produce	the harvested product of an entity's biological assets 农产品指生物资产的收获品
Biological transformation	the processes go growth, degeneration, production and procreation that cause qualities and quantitative changes in a biological asset 生物转化指生物资产生长，蜕变，生产，繁殖的结果【不包括收获】

2. Recognition

A biological assets or agriculture produce is recognised when：

(1) The entity controls the asset

(2) It is probable that future economic benefits associated with the asset will flow to the entity

(3) The fair value or cost of the asset can be measured reliably

3. Measurement

Biological assets within the scope of IAS 41 are measured on initial recognition and at subsequent reporting dates at：

① Fair value less estimated costs to sell 【首选】

② Cost - accumulated depreciation - impairment loss【公允价值无法可靠计量时】

【注意】

① Changes in FV-CTS of biological assets during a period, are included **in profit or loss**，属于经营活动分类.

用“FV- CTS”方法来计量，企业需要在每年年底对生物资产的价值重新计量，以确保其价值的准确性。这之间生物资产价值的变化（增加或减少）金额，应该计入当期损益SPL，属于经营活动分类。在这里的 cost to sell 包括：支付给经纪人或经销商的手续费或中介费，管理机构和商品交易所的征费，交易税等。

② Agricultural produce is measured at fair value less estimated costs to sell at the point of harvest. 丰收农副产品按照丰收当日的 FV-cost to sell 计量

③ A gain or loss agricultural produce at fair value less costs to sell are included in profit or loss. 生物资产成为农副产品时公允价格变动也计入SPL

【经典例题】

1. 2021年12月模拟卷

At 31 March 20X4, Shaw Co had a flock of sheep, included in the financial statements at $400,000. At March 20X5, the flock of sheep has a fair value of $480,000. If Shaw Co sold the flock of sheep, commission of 4% would be payable.

Which of the following describes the correct accounting treatment for the flock of sheep at 31 March 20X5?

A. Measure the flock at $480,000 and included the gain in the statement of profit or loss
B. Measure the flock at $460,800 and included the gain in the statement of profit or loss
C. Measure the flock at $480,000 and included the gain in the other comprehensive income
D. Measure the flock at $460,800 and included the gain in the other comprehensive income

2. At what amount is a biological asset measured on initial recognition in accordance with IAS 41 Agriculture?

A. Production cost
B. Fair value
C. Cost less estimated cost to sell
D. Fair value less estimated cost to sell

3. Which of the following is NOT the outcome of a biological transformation according to IAS 41?

A. Growth
B. Harvest
C. Procreation
D. Degeneration

4. How is a gain or loss arising on a biological asset recognized in accordance with IAS 41?

A. Included in profit or loss for the year
B. Adjusted in retained earning
C. Shown under "other comprehensive income"
D. Deferred and recognized over the life of the biological asset

Answer：B D B A

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

第五章 租赁

IFRS 16 Leases

1. Definition

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Right to control	① The right to obtain substantially all of the economic benefits from use of the identified asset 有权获得租赁资产所带回的经济利益 ② The right to direct the use of the identified asset 有权决定租赁资产的使用
Identified assets	Supplier cannot substitute the underlying asset 租赁资产必须是一个指定资产，如果在租期内，出租人可以任意替换租赁资产，则不构成租赁合同的定义

1.2 Exemption from IFRS 16

	With IFRS 16	Exemption
Right of use assets	✓	✗
Lease liability	✓	✗
Interest expense	✓	✗
Depreciation	✓	✗
lease payment	本质为分期还款: Dr lease liability Cr Cash	本质为租金费用: Dr Rent expense Cr Cash

本准则允许以下两种租赁合同享有豁免权：

短期租赁 **Short-term leases**	Lease term less than 12 months
低价租赁 **Low value leases**	The underlying asset has a low value when new： ① The lease can benefit from using the underlying asset. 租赁具有实质经济含义 ② The underlying asset is not highly dependent on, or highly interrelated with, other assets. 租赁资产不得与其它资产有内在高度联系

【注意】Lessee shall recognize the lease payments as an expense in SPL on a straight-line basis over the lease term 承租方需要按照“直线法”确认为费用

2. Initial measurement

2.1 Lease liability

At the commencement date, a lessee shall measure the lease liability at the present value（PV）of the future lease payments, including any expected payments at the end of the lease, discounted at the interest rate implicit in the lease.

☑ 考点：Any deposits paid to secure the lease are not future payments and should not be included. 押金或首付不计入租赁负债

2.2 Right-of-use assets

At the commencement date, the right-of-use asset is measured at cost.

Cost = Initial payment + Lease liability + directly attributable cost - incentive received + dismantling cost

☑ 考点：押金或首付需要计入使用权资产初始计量价值

租赁初始分录：

Dr. Right-of-use asset	X
Cr. Lease liability (PV of future lease payment)	X

Cr. Cash (Initial deposit + direct cost - incentives) X

Cr. Provision (IAS 37 弃置成本) X

3. Subsequent measurement

3.1 Lease liability

Lease liability will subsequently:

- Be decreased due to lease payments made
- Be increased due to interest accrued on the outstanding liability

（1）Payment in advance 提前还款

Year	Opening lease liability	Payment	Balance	Interest	Closing lease liability
1	PV	（X）	X	X	X
2	X	（X）	X （Current liability）	X	X

还款分录:

Dr Lease liability X

Cr Cash X

利息分录:

Dr Finance cost X

Cr Lease liability X

（2）Payment in arrears 滞后还款

Year	Opening lease liability	Interest	Payment	Closing lease liability
1	PV	X	(X)	X
2	X	X	(X)	X (Current liability)

利息及还款分录:

Dr Finance cost X

Dr Lease liability X

Cr Cash X

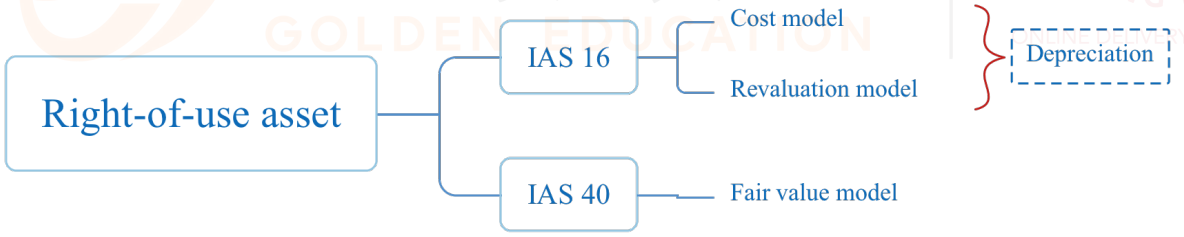

☑ 考点：今年的NCL即下一年还款之后的余额

【注意】

- 租赁负债金额需要区分为NCL和CL
- Interest 作为费用确认进当期损益SPL中Interest expense，属于融资活动分类
- 使用权资产可以与PPE合并列示，也可以单独列示，但如果使用权资产属于投资性房地产，则必须与投资性房地产合并列示。

3.2 Right-of-use asset

After the commencement date, the right-of-use asset should be measured using the cost model in IAS 16, unless it is an investment property:

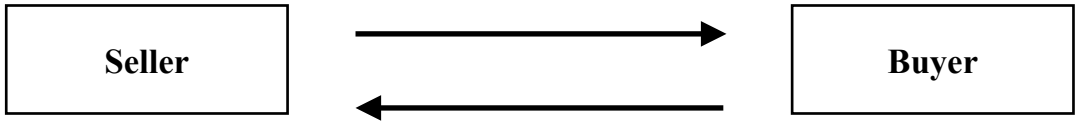

情况	折旧要求【背过】
Transfer ownership	depreciated over the useful life of the underlying asset.
No transfer ownership	depreciated from the commencement date to the earlier of the end of the useful life and the end of the lease term.

注意：使用权资产的折旧属于经营活动分类。

4. Sale and leaseback

Sales： 是否满足IFRS 15

Lease back

如果销售满足IFRS 15要求，即转移资产控制权给客户，卖家需要计算：

ROU assets	Carrying amount * $\frac{\text{Lease liability}}{\text{Fair value}}$
Net profit on disposal	Total profit *（1 - $\frac{\text{Lease liability}}{\text{Fair value}}$）

【注意】

- 当资产售价高于公允价值时，仍用公允价值参与上述公式计算，售价比公允价值高出的部分确认为额外借款
- 如果销售不满足IFRS15要求，即没有转移资产控制权，则此交易属于“销售以及回租”，不需要计算上述科目，但需要将收款金额确认为抵押借款，即：

  Dr Cash X

  Cr Liability X

【经典例题】

1. 根据2022年真题改编

ABC entered into a short-term lease with 12 months on 1 September 20X3:

First 4 months：lease payment is $250,000 per month

Last 8 months：lease payment is $280,000 per month

What amount will be charged in Statement of profit or loss for the year ended 31 December 20X3?

$_____

2. Pebworth Co acquired an item of plant under a lease on 1 April 20X7. The present value of the future lease payments and the carrying amount of the right of use asset was $15,462,000 and three further payments of $6m per annum are due to be paid in arrears on 31 March each year. The useful life of the plant is deemed to be five years. There is no option to buy the asset at the end of the lease term.The implicit interest rate is 8%.

What is the total charge to profit or loss in respect of this lease at 31 March 20X8?

$_____

3. During the year ended 30 September 20X4 Hyper Co entered into the following transactions:

On 1 October 20X3 Hyper Co acquired under a lease to obtain a right of use asset which was initially measured at $340,000. Under the term of the lease, a payment in advance of $90,000 was made on commencement of the lease, being the first of 5 equal annual payments. The right of use asset has a 5-year useful life. The lease has an implicit interest rate of 10%.

On 1 August 20X4, Hyper Co made a payment of $18,000 for nine month lease of an item of equipment. Hyper wishes utilize the exception available under IFRS 16.

What amount in total would be charged to Hyper Co's statement of profit or loss for the year ended 30 September 20X4 in respect of the above transaction?

$_____

4. An initial payment $100,000 is made on 1 April 20X7 by Fino Co and the present value of the future lease payment at that date is $173,500. Payments in respect of the lease are made in advance and are $100,000 per annum, commencing on 1 April 20X8. Fino Co incurred initial direct costs of $20,000 to set up the lease and received lease incentive from the manufacture totaling $7,000.

What is the initial cost of right of use assets as at 1 April 20X7?

A. $293,500
B. $186,500
C. $313,000
D. $286,500

Answer: 1080000，6390960， 97000， D

第六章 预计负债和或有事项

IAS 37 Provision and contingencies

1. Provision

1.1 Definition

A provision is a liability of uncertain timing or amount.

1.2 Recognition

① An entity has a present obligation (legal or constructive) as a result of a past event

A legal obligation:

- A contract
- Legislation or law

A constructive obligation:

- By an established pattern of past practice or published policies, he entity has indicated to other parties that it will accept certain responsibilities; and 来源企业过去惯例或新公布的企业政策
- As a result, the enterprise has created a valid expectation 创造有效预期

② It is **probable** that an outflow of economic benefits will be required to settle the obligation

③ A **reliable estimate** can be made of amount of the obligation.

【注意】如果不满足三个条件，此事件直接确认为或有负债进行披露

1.3 Measurement

One-off events	Regular and large population events
Provision is measured at the most likely amount E.g. Lawsuit	Provision is measured at a probability-weighted average expected value E.g. Warranty and customer refund

首次确认：	年末预计负债增加：	年末预计负债减少：
Dr Expense X Cr Provision X	Dr Expense X Cr Provision X	Dr Provision X Cr Expense X
考点：费用确认进SPL，属于经营活动分类，对于重大且一次性费用需要单独列示		

【注意】对于某些预计负债情况之下，我们会收到第三方补偿，例如当我们上过保险就会收到保险公司的补偿，补偿金额不可与provision进行抵减合并

2. Application of provision

事件	含义
Warranty	A warranty is often given in manufacturing and retailing business. Entity has the present obligation to make good or replace faulty products ☑ 考点：只有产品维保预计负债才需要用加权平均期望值计量
Law suit	Third party reach an court action against us for calming the damages ☑ 考点：是否产生预计负债需要看付款可能性是否为很有可能，如果不是，则确认或有负债
Environmental -Clean up cost	Restoration of site for damage caused by the plant's operation： Dr Expense（经营活动分类） Cr Provision
Environmental- Dismantling cost	Restoration of site for damage caused by construction and dismantling or removal of plant： 第一步：折现计算现值PV： Dr NCA（资本化为资产价值，并跟随资产折旧，属于经营活动分类） Cr Provision 第二步：年末展开产生利息： Dr Interest expense（计入SPL属于融资活动分类） Cr Provision
Onerous contracts	Contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

Restructurings	企业重组范围： ① The **sale or termination** of a line of business ② The **closure of business locations** in a country or region ③ business activities from one country region to another ④ **Changes in management structure** ⑤ **Fundamental reorganizations** that have a material effect on the nature and focus of the entity's operations. 计提预计负债条件：（背过） ① Entered into a binding contract（如果涉及售卖资产，非常规条件） ② Has a detailed formal plan ③ Has raised a valid expectation by staring to implement that plan or announcing its main features to those affected by it 确认： Dr Expense（计入SPL，属于经营活动分类） Cr Provision

3. Contingent liability

或有负债有两种：

① Definition：A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise; or

② A present obligation that arises from past events but is not recognized as provision because:

- It is not probably that an outflow of resources，or
- The amount of the obligation cannot be measured with sufficient reliability

未来经济利益流出可能性	确认	处理方式
Virtually certain	Liability	SOFP
Probable	Provision	SOFP
Possible	Contingent liability	Disclose
Remote	Contingent liability	Ignore

4. Contingent asset

Definition:

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise.

未来经济利益流入可能性	确认	处理方式
Virtually certain	Assets	SOFP
Probable	Contingent assets	Disclose
Possible	Contingent assets	Ignore
Remote	Contingent assets	Ignore

【经典例题】

1. 2019年6月考官报告

During the year Peterlee Co acquired an iron ore mine at a cost of $6m. In addition, when all ore has been extracted (estimated ten years's time) the company will face estimated costs of landscaping the area affected by the mining that have a present value of $2m. These costs would still have to be incurred even if no further ore was.

How should $2m future costs to be recognized in the financial statements?

A. Provision $2m and $2m capitalized as part of the cost of mine
B. Provision $2m and $2m charged to operating costs
C. Accrual $200,000 per annum for next ten years
D. Should not be recognized as no cost has yet arisen

2. 2019年6月考官报告

Flute Co undertakes drilling activities and has a widely published environmental policy stating that it will incur costs to restore land to its original condition once drilling activities have been completed. Drilling commenced on a particular piece of land on 1 July 20X8. At this time, Flute Co estimated that it would cost $3m to restore the land when drilling was completed in five year's time. Flute Co's cost of capital is 7% and appropriate present value factor is 0.713.

At what amount will the provision for restoration costs be measured in Flute Co's statement of financial position as at 31 December 20X8?

A. $2.4m
B. $3m
C. $2.29m
D. $2.21m

3. Identify wether the following statements are true or false

Provision should be made for both constructive and legal obligation	TRUE	FALSE
Discounting may be used when estimating the amount of a provision	TRUE	FALSE
A restructuring provision must include the estimated costs of retraining or relocating continuing staff	TRUE	FALSE
A restructuring provision may only be made when a company has a detailed plan for the restructuring and has communicated to interested parties a firm intention to carry it out	TRUE	FALSE

Answer: A D true true false and true

第七章 企业所得税

IAS 12 Income tax

1. Current tax 当期所得税

1.1 当期税费预估：

Dr Tax expense X
Cr Tax payable (CL) X

1.2 去年税费调整：

去年低估 Under provision-Debit balance on trial balance：调增今年税费

去年高估 Over provision-Credit balance on trial balance：调减今年税费

【Example】

Trial balance	Dr	Cr
Current tax		400

A provision for the current tax for the year ended 31 March 2015 of $3,500 is required. What is the current tax expense?

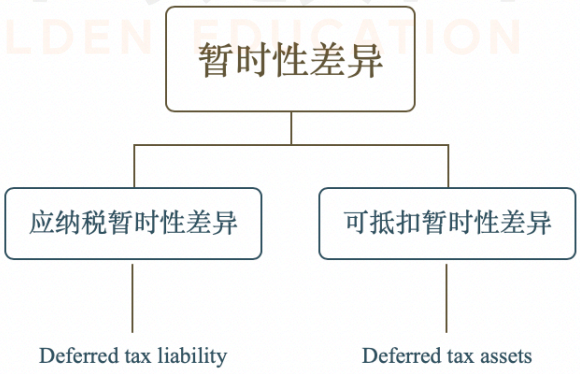

$_____

Answer: 3100

3. Deferred tax 递延所得税

递延所得资产	Deferred tax assets are the amounts of income taxes recoverable in future periods in respect of deductible temporary difference 根据可抵扣暂时性差异计算的未来可收回所得税金额
递延所得负债【背过】	Deferred tax liability are the amounts of income taxes payable in future periods in respect of taxable temporary difference 根据应纳说暂时性差异计算的未来应负所得税金额
暂时性差异	Temporary differences are differences between the carrying amount of an asset or liability and its tax base for temporary
应纳税暂时性差异	Taxable temporary differences are temporary differences that will result in taxable amounts in determining taxable profit of future periods when the carrying amount of the asset or liability is recovered or settled 在未来收回或清偿资产或负债时，会导致未来纳税利润暂时性增加的差异出现
可抵扣暂时性差异	Deductible temporary differences are temporary differences that will result in amounts that are deductible in determining taxable profit of future periods when the carrying amount of the asset or liability is recovered or settled. 在未来收回或清偿资产或负债时，会导致未来纳税利润临时性抵扣的差异出现
账面价值	Carrying amount of assets or liability
计税基础【背过】	Tax Base is the amount attributed to an asset or liability for tax purposes 指计税时归属于该资产或负债的金额

【注意】本准则内的资产和负债如果同时出现，不允许抵消

3.1 Deferred tax liability

Carrying amount + Revaluation gain	X
Less：Tax base	(X)
Taxable temporary difference + Revaluation gain	X
Tax rate	* %
DTL closing	X
DTL opening	(X)
DTL movement	X/(X)

DTL 增加		DTL 减少	
Dr OCI/RS【重估增值 * 税率】	X	Dr OCI/RS【重估增值 * 税率】	X
Dr or Cr Tax expense【倒推】	X	Dr Deferred tax liability	X
Cr Deferred tax liability	X	Cr Tax expense【倒推】	X

【注意】

- 一般情况，由折旧引起的DTL变化记入当期损益SPL中的企业所得税费用科目tax expense
- 如果由增值引起的DTL变化部分需要记入其他综合性收益OCI中跟revaluation gain抵扣，同时revaluation surplus也须相应抵扣

3.2 Deferred tax assets

Carrying amount - Impairment	X
Less：Tax base	(X)
Deductible temporary difference	(X)
Tax rate	* %
DTA closing	X
DTA opening	(X)
DTA movement	X/(X)

DTA 增加		DTA 减少	
Dr Deferred tax assets	X	Dr Tax expense	X
Cr Tax expense	X	Cr Deferred tax assets	X

【经典例题】

1. 2010年12月

Trial balance $'000	Dr	Cr
Current tax	900	
Deferred tax		4,000

A provision for the income tax is $5.6m. The balance on the current tax represents the over/under provision of tax for the previous year. At year end, the tax base of assets was $15m less than their carrying amounts. The income tax rate is 25%.

2. 2012年12月

$'000	Dr	Cr
Current tax	1,100	
Deferred tax		1,200

The balance on the current tax represents the over/under provision of tax for the previous year. A provision for income tax for this year is $7.4m. At year end , the taxable temporary difference was $5m. The income tax rate is 20%.

3. 2015年6月

$'000	Dr	Cr
Current tax		400
Deferred tax		2,700

A provision for the income tax for this year is $3.5m.The balance on the current tax represents the over/under provision of tax for the previous year. At year end, the tax base of assets was $12m less than the carrying amounts. The income tax rate is 25%.

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

4. 2012年6月*

$'000	Dr	Cr
Current tax	800	
Deferred tax		3,200

The income tax calculation for this year shows a tax refund of $2.4m. The balance on the current tax represents the over/under provision of tax for the previous year. At year end the taxable temporary differences of $12m is required. The income tax rate is 25%.

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

5. 2011年6月

$'000	Dr	Cr
Current tax		800
Deferred tax		2,600

The balance on the current tax represents the over/under provision of tax liability for the last year. The required provision for the income tax for this year is $19.4m. The difference between the carrying amount of assets (including revaluation surplus $15m) and their tax base is $27m. The income tax rate is 25%

6. 2014年12月

$'000	Dr	Cr
Current tax		1,100
Deferred tax		2,500

A provision of $2.4m is required for the current income tax. The balance on the current tax represents the over/under provision of tax for the previous year. In addition to the revaluation surplus of $12m, further taxable temporary differences is $10m. Tax rate is 20%.

7. 2016年9月

$'000	Dr	Cr
Current tax	700	
Deferred tax		3,200

A provision of $2.7m is required for this year. The balance on the current tax represents the over/under provision of tax for the previous year. In addition to the revaluation surplus of $7.8m, the carrying amounts of assets are $12m more than their tax base. The income tax rate is 20%.

8. 2013年12月

$'000	Dr	Cr
Current tax		1,050
Deferred tax		8,000

A provision for income tax for this year is $3.4m. The balance on the current tax represents the over/under provision of tax for the previous year. At year end, the tax base of assets was $24m less than their carrying amounts. This does not include the revaluation surplus of $4.4m.The income tax rate is 25%

9. 2016年12月真题

The company revalued an office. The office had been purchased for $500,000 earlier in the year, but subsequently discovery that its revalued to $400,000. No depreciation is charged and the income tax rate is 30%.

In accordance to IAS 12, what is the impact of impairment of property on the tax expense?

A. Tax expense increase by $180,000
B. Tax expense increase by $120,000
C. Tax expense decrease by $30,000
D. No impact

Answer:

题号	Tax expense
1	6250
2	8300
3	3400
4	1800 Tax income
5	19000
6	800
7	2600
8	350
9	C

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

第八章 金融工具

- **IAS 32 Financial instruments: Presentation**
- **IFRS 9 Financial instruments**

Financial instrument	A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
Financial assets	A financial asset is any asset that is: （考过） ① Cash ② An equity instrument of another entity ③ A contractual right to receive cash or another financial asset from another entity ④ A contractual right to exchange financial instruments with another entity under conditions that are potentially favorable E.g. • Trade receivables • Investment in equity shares【ordinary share and preference share】 • Investment in loan notes • Investment in convertible loan notes
Financial liabilities	A financial liability is any liability that is a contractual obligation: （考过） ① To deliver cash or another financial asset to another entity ② To exchange financial instrument with another entity under unfavorable conditions E.g. • Trade payables • Bank overdraft • Issue loan notes / bonds / debentures • Issue redeemable preference shares
Equity instrument	Any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities（考过）
Compound instrument	A compound instrument is a financial instrument that has characteristics of both equity and liabilities（考过）

☑ 考点：以上定义需要背过，考过多次文字题

1. Financial assets

1.1 Initial measurement

金融资产	初始计量	交易成本
投资债券	Cost = principal amount - discount + transaction cost	资本化
投资股票【以交易为目的】	Cost = FV	费用化
投资股票【不以交易为目的】	Cost = FV + transaction cost	资本化

1.2 Subsequent measurement

金融资产	后续计量
投资债券	Amortized cost
投资股票【以交易为目的】	Measured at year end FV，gain or loss of FV recognized in SPL
投资股票【不以交易为目的】	Measured at year end FV，gain or loss of FV recognized in OCI

（1）Amortized cost

Year	Opening	Interest income @ EIR	Interest received @ Coupon	Closing
1	X + Transaction cost	X	(X)	X
		分录： Dr Financial asset Cr Interest income	分录： Dr Cash Cr Financial asset	

【注意】

- 使用此计量方法需要通过两项测试：Cashflow test 现金流测试（合同是否明确规定收取现金流的日期？收取的现金流是否只包含本金和利息？），business model test 商业模式测试（投资的目的是否以收取合同规定的现金流为主？）
- 实际利率计算金额确认进当期损益SPL作为投资收入，属于投资活动分类
- 期末价值记入资产负债表作为投资债券的账面价值
- 利息收入计入SPL属于投资活动分类

（2）FVTPL

- 如果企业投资股票是以交易为目的，则持有股票按此方法计量
- 此计量方法也是一种股票“默认计量方法 default measurement basis”，如果企业未表明目的，默认按此方法计量
- 用此方法，股票年底以公允价值计量（不考虑年底交易成本），公允价值变动确认进当期损益中

Initial measurement	X	
Add：Gian on FV	X	计入SPL投资活动分类
Less：Loss on FV	(X)	计入SPL投资活动分类
Closing FV	X	计入SOFP

（3）FVTOCI

- 如果企业投资股票但不以交易为目的，则持有股票按此方法计量
- 此种计量方法也叫做“备选计量方法”
- 从此方法，股票年底以公允价值计量（不考虑年底交易成本），公允价值变动确认进其他综合性收益

Initial measurement	X	
Add：Gian on FV	X	计入OCI
Less：Loss on FV	(X)	计入OCI
Closing FV	X	计入SOFP

2. Financial liability

2.1 Initial measurement

Cost = principal amount - discount - transaction cost

☑ 考点：交易成本需抵减负债初始计量价值（考过很多次改错）

2.2 Subsequent measurement

Year	Opening	Interest expense @EIR	Interest paid @Coupon	Closing
1	X - Transaction cost	X	(X)	X
		分录： Dr Interest expense Cr Financial liability	分录： Dr Financial liability Cr Cash	

【注意】

- 由实际利率计算金额确认进当期损益SPL中属于融资活动分类
- 期末价值记入资产负债表，作为长期负债NCL
- 债券不需要区分长期和短期部分，因为没有分期还款要求，所以全部都是长期负债

3. Compound instruments

对于混合金融工具，准则要求在发行日进行拆分计量 Split accounting：

- Financial liability (the debt)
- Equity instrument (the convert option)

拆分计量三步法：

① 利本折现，现值即负债初始计量金额

② 倒推求差值，差值即Equity（直接确认进资产负债表中其他储备科目other reserve）

③ 年末负债摊余成本计量求期末价值

4. Recognition and derecognition of financial instruments

4.1 Recognition financial instruments：

① When it becomes a contractual party

② Fair value and cost can be measured reliably

4.2 De-recognition financial instruments：

① Contractual rights or obligation expires，or

② Entity has transferred risk and reward of financial instruments to others

【经典例题】

1. Dexon Co's draft statement of financial position as at 31 March 20x8 shows financial assets at fair value through profit or loss with a carrying amount of $12.5m as at 1 April 20X7. These financial assets are held in a fund whose value changes directly in proportion to a specified market index. At 1 April 20X7 the relevant index was 1,200 and at 31 March 20X8 it was 1,296.

   What amount of gain or loss should be recognized at 31 March 20X8 in respect of these assets?

   $_____

2. ABC purchased 10,000 shares on 1 September 20X4, making the election to use the alternative treatment under IFRS 9. The shares cost $3.5 each. Transaction costs associated with purchase were $500. At 31 December 20X4, the shares are trading at $4.5 each

   What is the gain to be recognized on these shares for the year ended 31 December 20X4?

   $_____

3. On 1 January 20X1 Tenfold Co purchased a debt instrument at a fair value of $500,000. It had a principal amount of $550,000 and was due to mature in five years. The debt instrument carries fixed interest of 6% paid annually in arrears and has an effective interest rate of 8%. It is held at amortized cost.

   At what amount will the debt instrument be shown in the statement of financial position of Tenfold Co as at 31 December 20X2?

   A. $514,560
   B. $566,000
   C. $564,560
   D. $520,800

4. 2012年12月真题

Trial balance ($'000)	Dr	Cr
6% loan notes		25,000
Administrative expense	19,000	

The company issued a $25m 6% loan notes on 1 October 2011 (YE is 30 Sep 2012). Issued costs were $1m and these have been charged to administrative expenses. The loan notes will be redeemed on 30 Sep 2014 at premium which gives an effective interest rate on the loan of 8%. What's value of loan notes at the year-end?

5. 2015年12月真题

Trial balance ($'000)	Dr	Cr
5% loan notes		20,000
Administrative expense	6,800	

The company issued a $20m 5% loan notes on 1 July 2014 (YE is 30 Jun 2015). Issued costs were $500,000 and these have been charged to administrative expenses. The loan notes will be redeemed three years later at premium which gives an effective interest rate on the loan of 8%. What's amount of loan notes at the year-end?

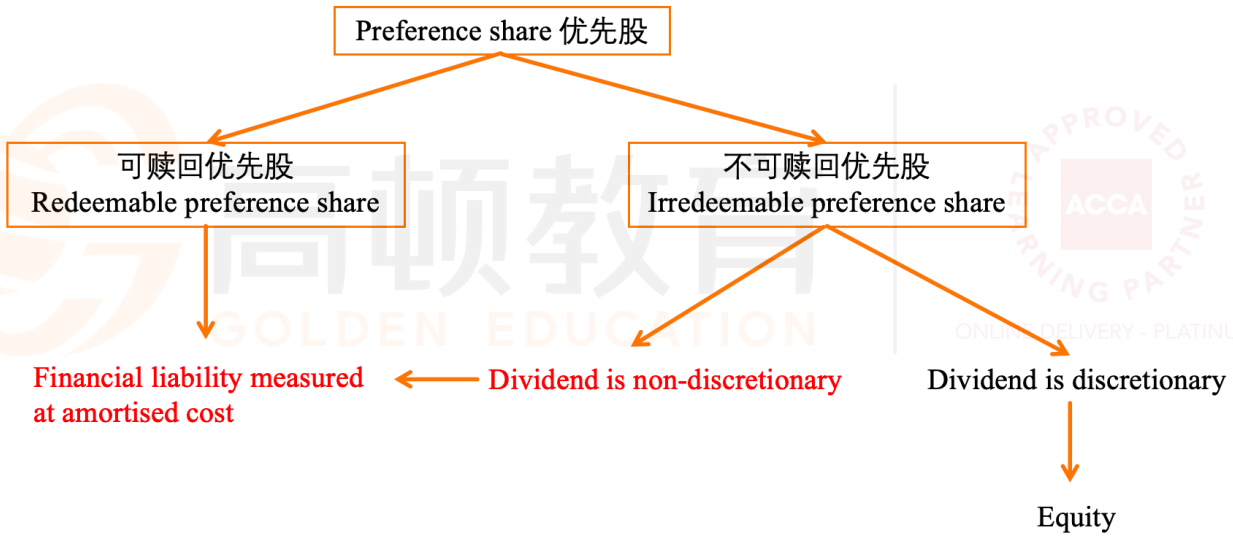

Answer:

题号	答案
1	1000000
2	9500
3	A
4	24420
5	20060

总结：

	投资方（购买方）	融资方（发行方）
关键词	Purchase，acquire，invest，buy, acquisition	Issue
债券	Cost=Principal - discount + transaction cost	Cost=Principal - discount - transaction cost
	Amortized cost	Amortized cost
股票	FVTPL【默认】 FVTOCI【备选】	—
可转债	—	拆分计量三步法

补充：

第九章 收入

- **IFRS 15 Revenue from contracts with customers**
- **Substance over form**
- **IAS 20 Government grants**

IFRS 15 Revenue from contracts with customers

1. Five-step approach 五步法

Step 1	**Identify the contract with customers 确认合同的存在：** ① The contract has been approved by the parties to the contract; 合同各方已批准（通过书面，口头或根据商业惯例形式） ② Each party's rights in relation to the goods or services to be transferred can be identified; 合同各方能够识别与拟转让商品或服务相关的权利 ③ Payment terms for the goods or services can be identified; 能够识别付款金额 ④ The contract has commercial substance; 合同具有商业实质 ⑤ It is probable that the consideration in exchange for the goods or services will be collected. 很有可能收到客户支付的对价
Step 2	**Identify the performance obligation in the contract 识别履约义务：** The performance obligation can be履约义务可以是以下任意一种: ① A good or service (or bundle of goods or services) that is **distinct**; or 可明确区分的商品或服务（或商品服务的捆绑） ② A series of **distinct** goods or services that are substantially the same and that have the same pattern of transfer to the customer. 实质上相同并且按相同模式向客户转让的一系列可明确区分的商品或服务 A good or service is **distinct** if both of the following criteria are met 可明确区分需要满足: ① The customer can benefit from the good or services on its own or in conjunction with other readily available resources; and 客户能够从单独使用该商品或服务，或是将其与客户易获得的资源一起使用获益 ② The entity's promise to transfer the good or service to the customer is separately identifiable. 承若转让的商品或服务可单独售卖或提供

Step 3	**Determine the transaction price 确定合同交易价格** The transaction price is the amount to which an entity expects to be entitled in exchange for the transfer of goods and services. 交易价格指主体因向客户转让已承若商品或服务而预计有权获得的对价 如果是可变对价，可以用以下两种方法进行计算： • Most likely amount 最有可能金额【当合同仅有两个可能结】 • Expected value method 预期价值【大量类似合同，且产生多个结果】
Step 4	**Allocate the transaction price to the different performance obligations 分摊合同价格至每一项履约义务** ① Stand alone selling price approach 单独售价比例法 单独售价定义（考过文字判断题）：the price at which an entity would sell a promised good or service separately to a customer ② Expected cost plus a margin approach 预计成本加毛利法
Step 5	**Recognize the revenue when the entity satisfy the performance obligation 当企业满足履约义务时才可以确认对应收入** • Revenue is recognized as performance obligation has been satisfied either over time or at a point in time. 企业完成履约义务（可以是一个时间点或一段时间完成），可以确认对应收入 • An entity must be able to reasonably measure the outcome of a performance obligation： ① Input metjod 投入法计量履约义务完成度 ② Output method 产出法计量履约义务完成度

☑ 考点：**Sales with significant financing component 带有重大融资情节销售**

- 判断标准：赊销且账期大于等于一年，自动成为此类交易（材料中带有利率）
- 第一步：折现后的现值记为销售收入

  Dr Trade receivable

  Cr Revenue
- 第二步：年末计算利息收入

  Dr Trade receivable

  Cr Interest income
- 注意：利息收入属于经营活动分类，可以和Other operating income合并记录或单独列示

【经典例题】

1. 2016年6月真题

Revenue includes an amount of $16m for a sale made on 1 April 20X5（year end is 31 March 20X6）.

The sale related to a single product and includes ongoing services for 4 years. The normal selling price of the product and services would be $18m and $500,000 per year ($2m in total).

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

2. 2012年12月真题

On 1 October 2011 (year end is 30 September 2012), Quincy sold one of its products for $10m (included in revenue in trial balance). As part of the sale agreement, Quincy is committed to the ongoing servicing of this product until 30 September 2014. The value of this service has been included in the selling price of $10m. The estimated cost of servicing is $600,000 per annum and Quincy's normal gross profit margin on this type of servicing is 25%. Ignore discounting.

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

Answer:

1	Dr Revenue Cr Deferred income	1.2m 1.2m
2	Dr Revenue Cr Deferred income	1600 1600

2. Construction Contracts 建造合同

建造合同也属于IFRS15的范围，属于其中的服务合同，因为建造楼房也是在提供一种服务，对于房地产商，需要按照完工率即履约义务完成度逐年确认收入

2.1 确认

合同预估结果	确认原则
利润合同	收入按完功率确认，成本按已发生实际金额确认
亏损合同	收入按完工率确认，全部亏损立即确认到SPL，成本倒推
保本合同（结果无法可靠估计）	收入=成本（实报实销）

2.2 计量

Step 1： 预测合同结果	
Total contract price	X
Less: Total cost:	
Cost incurred to date	(X)
Cost to complete	(X)
Specialist PPE total depreciation (if any)	(X)
Total profit	正数
Total loss	负数

Step 2：计算完工率 Percentage of completion

① 测量师（surveyor）

② 工程价值比 = work certified (invoiced) / total contract price * 100%

③ 工程成本比 = cost to date / total cost * 100%

Step 3.：计算当期损益确认金额SPL	
Revenue 【Total contract price * %】- previously recognized	X
Cost 【按照实际发生成本记cost incurred】	（X）
Current profit	X

Step 4.：SOFP【累计金额】	
Revenue recognized to date	X
Less: Amounts invoiced to date (billing amount)	(X)
Contract assets	正数
Contract liability	负数

2.3 概念区分【不用背，了解即可】

Trade receivable	an entity's right to receipt that is unconditional. 应收账款是企业有权收取的对价，是无条件的收款权利，仅需随着时间流逝到期便可获得的金额
Contract assets	an entity's right to receipt in exchange for goods or services that the entity has transferred to customer when the right of receivable is conditioned on future performance. 企业因向客户转让商品或服务而获得对价的权利，属于有条件的收款权利（如企业未来的履约义务是否完成）
Contract liability	amount due to customer. 企业对于在将来要转移的商品或服务，已收取的对价

【经典例题】2014年12月真题改编

Yling entered into a construction contract on 1 January 2014 which is expected to last 24 months. The agreed price for the contract is $5m. At 30 September 2014, the costs incurred on the contract were $1.6m and the estimated remaining costs to complete were $2.4m. At 30 September 2014, the percentage certified as completed to date was 38%.

On 30 September 2014, Yling received a payment from the customer of $1.74m which was equal to the full amount of the amount invoiced to date.

What amount would be reported in Yling's statement of financial position as at 30 September 2014 for contract asset?

A. Nil
B. $160,000
C. $800,000
D. $200,000

Answer：B

Substance over form

1. Principal and agent 委托代理销售

【Indicators of agent】

① We do not responsible for fulfilling the the contract 不负责履行合同义务

② We do not bear the obsolescence risk of inventory 我们不承担存货风险

③ We do not establish the prices for goods or services 我们不负责定价

④ Our consideration is in form of commission 我们收取的对价是佣金

⑤ We do not exposed to credit risk 我们不承担信用交易风险

☑ **考点：错把原委托方收入确认为中介销售收入，需要改错：**

Dr Revenue	X
Cr Trade payable	X
Cr Commission income	X

2. Consignment inventory 寄售存货

Inventory is an arrangement where inventory is held by one party but is owned by another party.

【Indicators of consignment inventory】

① The goods controlled by the manufacturer until a specified events occurs 生产商仍保留商品实际控制权直到商品售卖给顾客为止

② The manufacturer is able to require the return of the product or transfer the product to a third part (such as another dealer) 生产商有权利要求退货或转运

③ The manufacturer bears the obsolescence risk of inventory 生产商承担存货实际风险

3. Sales and repurchase agreement 销售以及回购

These are the arrangements under which the company sells an asset to another person on terms that allow the company to repurchase the asset in certain circumstances.

【Indicators】

① The sale agreement contains the repurchase option 销售合同中带有回购条款

② The selling price is substantially higher or lower the FV of the assets 售价明显高于或低于资产的公允价值

③ After sales the seller still control the assets 卖家仍然实际控制售卖资产

④ The assets still remain in the seller's premise资产仍保留在卖方（未运货）

⑤ The buyer is limited in its ability to direct the use of the assets 买方不得随意使用资产（未获得资产使用控制权利）

☑ 考点：错把抵押借款金额确认为销售收入，需要改错：

Dr Revenue
Cr Loan in substance

Dr Finance cost
Cr Loan in substance

4. Bill and hold sales 开票持有交易

This is a contract under which an entity bills the customer for a goods but the entity retains physical possession of the products of the goods until the future.

允许企业在开票日确认收入，需要满足以前全部条件：

① The reason for the bill and hold sales is reasonable 开票持有交易的原因具有合理性

② The goods currently is reedy for physical transfer to customers 商品可以立即运送

③ The sold goods are identified separately as belonging to the customer 商品已明确标记属于买家

5. Factoring of receivables 应收账款保付代理

This is where debts or receivables are factored the original creditor sells the debts to the factor.

5.1 Sales with recourse

有追索权证明企业没有真的卖掉应收，而是抵押借款，企业不可以终止确认应收账款，需要确认负债：

Dr Cash
Cr Loan in substance

5.2 Sales without recourse

此交易为真正的售卖应收，企业需要将终止确认应收账款，并确认盈亏在当期损益中：

Dr Cash
D/Cr Gain or loss
Cr Trade receivables

☑ 考点：把假卖当真卖，也就是错误的消除应收账款，需要改错：

Dr Trade receivable

Cr Expense

Cr Loan in substance

【经典例题】

1. 2014年6月真题

Revenue includes an amount of $20m for cash sales made through X company's retail outlets during the year on behalf of another company F. X acting as agent, is entitled to a commission of 10% of the selling price of these goods. By year end, X had remitted to F $15m and recorded this amount in cost of sales.

2. 2013年6月真题

Revenue includes the sale of $10m of inventory made to X on 1 October 2012. The cost of the goods at the date of sale was $7m and A company has an option to repurchase these goods at any time within three years of the sale at a price of $10m plus accrued interest from the date of the date of sales at 10% per annum. At 31 March 2013 the option had not been exercised but it is highly likely that it will be before the date it lapses.

3. 2011年6月真题

At year end, H company factored (sold) the TR with a book value of $10m to Easyfinance. H received an immediate payment of $8.7m and will pay Easy 2% per month on any uncollected balances. Any of the factored TR outstanding after 6 month will be refunded to Easy. H has derecognized the TR and charged $1.3m to administrative expenses.

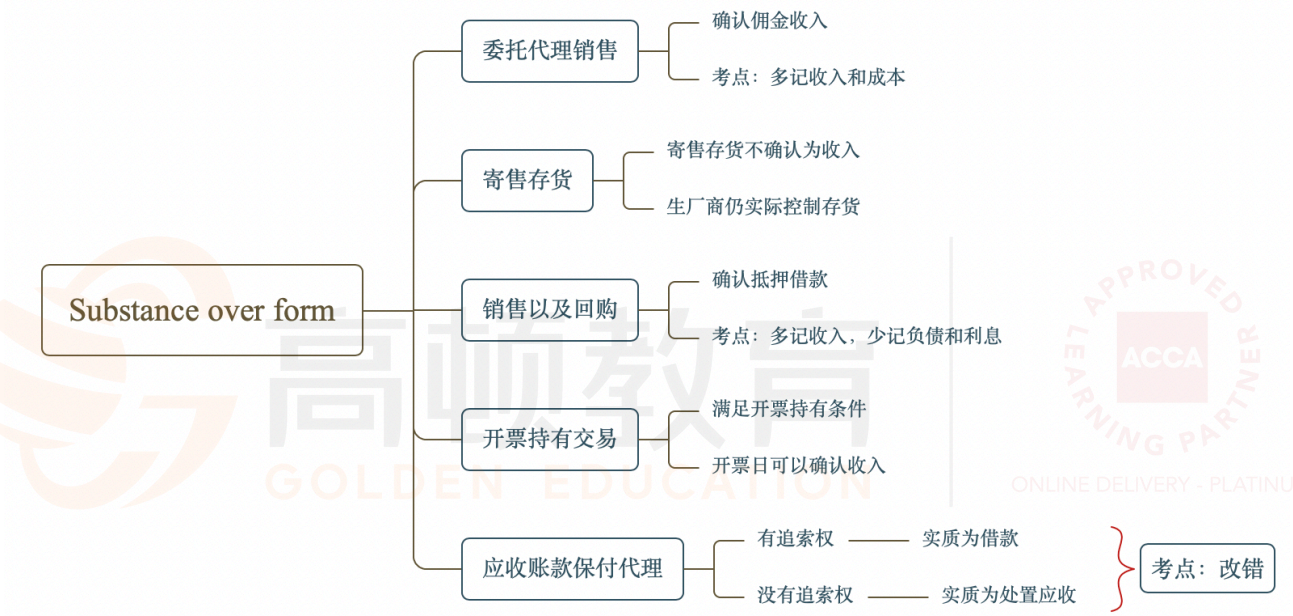

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

Answer:

1	Dr Sales revenue	20
	Cr Trade payable	18
	Cr Commission income	2
	And	
	Dr Trade payable	15
	Cr Cost of sales	15
2	Dr Sales revenue	10
	Cr Loan in substance(liability)	10
	And	
	Dr Finance cost	0.5
	Cr Loan in substance	0.5
3	Dr Trade receivable	10
	Cr Administrative expense	1.3
	Cr Loan in substance	8.7

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

Summary

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

IAS 20 Government grant

1. Definition

Government grants. Assistance by government in the form of transfer of resources to an entity in return for past or future compliance with certain conditions relating to the operating activities of the entity.

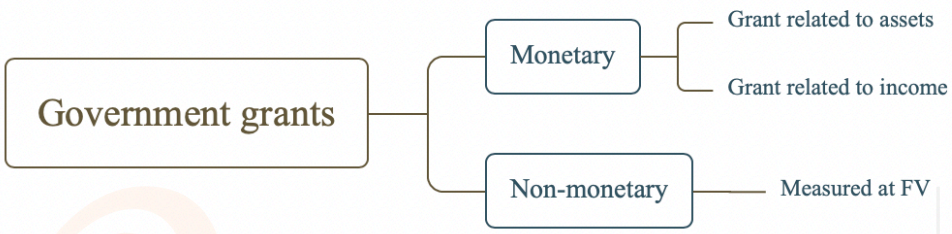

1.2 Recognition

An entity should not recognize government grants until it has reasonable assurance that:

① The entity will comply with any conditions attached to the grant 企业能够满足附加条件

② The entity will receive the grant 企业能够收到补贴

1.3 Types of government grants

① 【Government grant related to assets】Government grants whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire non-current assets.

② 【Government grants related to income】Government grants other than those related to assets.

2. Accounting treatment

补贴类型	会计处理	初始入账	后续入账	补贴返还
Grants related to assets	1. 抵减资产价值	Dr Cash Cr Assets	—	Dr Assets Dr Expense Cr Liability
	2. 建立递延收入	Dr Cash Cr Deferred income	Dr Deferred income Cr Grant income	Dr Deferred income Dr Expense Cr Liability
Grants related to income	1. 收款且完成条件	Dr Cash Cr Grant income / expense	—	Dr Expense Cr Liability
	2. 未收款但完成条件	Dr Receivable Cr Grant income / expense	—	Dr Expense Cr Liability
	3. 收款但条件未完成	Dr Cash Cr Deferred income	Dr Deferred income Cr Grant income / expense	Dr Deferred income Dr Expense Cr Liability

【注意】

- 资产相关补贴所产生的递延收入，后续释放方式应与资产折旧方法保持一致
- 资产残余价值不影响递延收入后续的释放金额
- 收入相关补贴所产生的递延收入，后续释放成本补贴收入，计入经营活动，可以和Other operating income合并记录，也可以单独列示为补贴收入，或与有关费用冲减，无论企业采用哪种方式，都需在附注中披露

3. Repayment of grants

A government grant that becomes repayable is accounted for as a change in accounting estimate in accordance with IAS 8. 政府补贴返还作为《IAS 8》会计估计变更处理

Repayment of grants relating to assets are recorded by increasing the carrying amount of the asset or reducing the deferred income. Any difference recognized in profit or loss immediately.

Repayment of grants relating to income are recorded by reducing the deferred income and then in profit or loss.

【经典例题】

1. 资产价值$4,000，寿命4年，政府补贴其中50%的价值，企业选择抵减资产价值法处理政府补贴

	1	2	3	4
Depreciation	500	500	500	500

2. 资产价值$4,000，寿命4年，政府补贴其中50%的价值，企业选择递延收入法处理政府补贴

（1）资产使用4年直线法折旧:

	1	2	3	4
Depreciation	1,000	1,000	1,000	1,000
Grant income	(500)	(500)	(500)	(500)

（2）资产使用40%递减法折旧，寿命4年:

Dr PPE	4,000
Cr Cash	4,000
Dr Cash	2,000
Cr Deferred income	2,000

（3）资产使用4年直线法折旧，残值为$400:

Dr PPE	4,000
Cr Cash	4,000
Dr Cash	2,000
Cr Deferred income	2,000

	1	2	3	4
Depreciation	900	900	900	900
Grant income	(500)	(500)	(500)	(500)

（4）资产使用4年直线法折旧，残值$400，资产在6月底才开始使用：

Dr PPE	4,000
Cr Cash	4,000
Dr Cash	2,000
Cr Deferred income	2,000

	1	2	3	4	5
Depreciation	450	900	900	900	450
Grant income	(250)	(500)	(500)	(500)	(250)

3. 政府补贴$100,000，用于补贴1天的培训费用$500,000， 培训课程在年初已上完，补贴也于年初收到

SPL	$
Training expense	
Grant income	

4. 政府补贴$100,000，用于补贴1天的培训费用$500,000， 培训课程在年初已上完，但补贴还没收到

SPL	$
Training expense	
Grant income	

5. 政府补贴$100,000，用于补贴1天的培训费用$500,000， 培训课程在年初已上完，其中$50,000的补贴于年初收到，剩余的补贴会在明年收到

SPL	$
Training expense	
Grant income	

6. 政府补贴$2,000，用于补贴一年的房租费用，全年房租为$10,000，补贴已经收到，但我们在6月底才开始租房并支付$5,000房租

SPL	$
Rent expense	
Grant income	

7. 政府补贴$5,000, 补贴已收到，条件是我们需要聘请5位残疾人，截止到今年年底，我们已聘请2位残疾人，并支付工资$20,000

SPL	$
Wages expense	
Grant income	

第十章 每股收益

IAS 33 Earnings per share

1. Basic earnings per share

EPS = Profit after tax - Preference share dividend
Number of ordinary shares

1.1 Cash issue

Dr Cash（发行股数*发行价）

Cr Share capital（发行股数*面值）

Cr Share premium（发行股数*每股溢价）

注意：Cash issue 是以正常市价发行新股给外来股东。

Step 1: Weighted average number of shares 加权平均股数

WANS =（之前总股数 *月份/12）+（之后总股数 *月份/12)

Step 2: EPS = Earnings
WANS

1.2 Bonus issue

Dr Share premium（红利股股数*面值）

Dr Retained earnings （剩余）

Cr Share capital（红利股股数*面值）

注意：Bonus issue 是免费送新股给现有股东，发行过后，股东原持股比例不变。

Step 1: 假设期初送股

$$EPS = \frac{Earnings}{\text{年末总股数}}$$

Step 2: 调整去年EPS

Restate last year EPS = 去年 EPS * N / N+1

【N : issue 1 bonus share for every N existing shares held】

1.3 Rights issue:

Dr Cash（权利股股数*发行价）

Cr Share capital（权利股股数*面值）

Cr Share premium（权利股股数*每股溢价）

注意：Rights issue 是以较低价格发行新股给现有股东，如果所有股东都参与，则股东原持股比例不变。

Step 1: 计算除权价 Theoretical ex - rights Price

$$TERP = \frac{N * \text{市场价} + 1 * \text{发行价（行权价）}}{N + 1}$$

【N: issue 1 rights share for every N existing shares held】

Step 2: 计算WANS

$$WANS = \frac{\text{（之前总股数} * \text{Market price} * \text{月份}/12) + (\text{之后总股数} * \text{月份}/12)}{TERP}$$

Step 3: 计算EPS

$$EPS = \frac{Earnings}{WANS}$$

Step 4: 调整去年EPS

Restated last year EPS = 去年EPS * TERP/Market price

2. Diluted earrings per share

A **future increase** in the **number of ordinary shares** will cause a dilution or of equity, and it is possible to calculate diluted earnings per share.（考过文字客观题）

2.1 Convertible loan notes

$$\text{Diluted EPS} = \frac{\text{Earnings} + \text{Post tax interest saving}}{\text{Existing shares} + \text{Maximum converted shares in the future}}$$

2.2 Share options

Step 1:

期权数	按市价发行股数	送股数
✖ 期权发行价	➗ 市场价	
总价	总价	

Step 2:

$$\text{Diluted EPS} = \frac{\text{Earnings}}{\text{送股数}}$$

【经典例题】

1. ABC issued $12,500 8% convertible loan notes at 1 Jan 20X5（year end is 31 Dec 20X5）. Each nominal value of $100 loan note will be convertible to shares as follows:

   on 31/12/20X6 25 shares
   on 31/12/20X7 20 shares
   on 31/12/20X8 15 shares
   on 31/12/20X9 10 shares

   The company now has issued shares of 4,000 and current profit is $8,000. The tax rate is 25%. Calculate the basic EPS ad diluted EPS.

   Basic EPS：_____

   Diluted EPS：_____

2. Golden Co. issued 200 share options for a right of purchased company's share for $8 per share. The current share price is $10 per share. The current issued number of shares is 700 and the current profit is $1,900. Calculate the basic EPS and diluted EPS.

   Basic EPS：_____

   Diluted EPS：_____

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

Answer:

1	Basic EPS：$2
	Diluted EPS：$1.2
2	Basic EPS：$2.7
	Diluted EPS：$2.6

第十一章 列报准则

- IAS 8 Basis of presentation of financial statements
- IAS 10 Events after reporting period
- IAS 21 Foreign currency transactions
- IFRS 13 Fair value measurement

IAS 8 Basis of presentation of financial statements

1. Accounting polices

1.1 Accounting polices

Accounting policies are the specific principles, bases, rules and practices adopted by an entity in preparing and presenting financial statements:

- Recognition
- Presentation
- Measurement

1.2 Changes in accounting policies

① Required by an IFRS or revised IAS

② If a change in accounting polity results in the financial statements providing more reliable and more relevant financial information.

☑ 考点：以下情况不属于会计政策变更

- 对以前未出现过的交易，采用某项会计政策
- 对以前未出现过的交易，采用新的会计政策
- 根据《IAS 16》和《IAS 38》规定，首次采取重估法计量资产，属于会计政策变更，但该变更应根据《IAS 16》和《IAS 38》规定处理，而不按照本准则处理
- 合并报表中，临时性将子公司会计政策调整为母公司会计政策不属于会计政策变更

1.3 Retrospective adjustment 追溯调整

The entity shall adjust the opening balance of each affected component of equity for the earliest prior period and the other comparative amounts disclosed for each prior period as if the new accounting policy had always been applied.

2. Accounting estimate

2.1 Definition

Transaction or events with uncertainties inherent would need professional judgment. These professional judgements are accounting estimates.

Example:

1. Allowance for receivables (2% or 3%)
2. Depreciation method
3. PPE useful life
4. PPE residual value
5. Amount of provision

2.2 Changes in accounting estimates and prospective adjustment

The effect of a change in an accounting estimate shall be recognized prospectively by including it in profit or loss in:

- The period of the change, if the change affects that period only; or
- The period of the change and future periods, if the change affects both

3. Errors

3.1 Prior period errors:

Prior period errors should be corrected retrospectively

3.2 Current period errors:

Current period errors should be adjusted for current year periods

注意：当前错误如果产生亏损费用，计入SPL属于经营活动分类

【经典例题】2010年12月真题

The directors of T Co are disappointed by the draft profit for the year ended 30 September 20X3. The company's assistant accountant has suggested two areas where she believes the reported profit may be improved:

(i) A major item of plant that cost $20m to purchase on 1 October 20X0 is being depreciated on a straight-line basis over a five-year period. The plant is wearing well and at the beginning of the current year (1 October 20X2) the production manager believed that the plant was likely to last eight years in total (from the date of its purchase).

(ii) Most of T Co's competitors value their inventory using AVCO basis, whereas T Co uses the FIFO basis. The value of T Co's inventory at 30 September 20X3 on the FIFO is $20m, however on the AVCO basis it would be valued at $18m. T Co's inventory at 30 September 20X2 was reported as $15m, however on the AVCO basis it would have been reported as $13.4m.

1. What is the nature of the change being proposed by the assistant accountant in (i) and how should it be applied?

A. Change of accounting policy: retrospective application
B. Change of accounting policy: prospective application
C. Change of accounting estimate: retrospective application
D. Change of accounting estimate: prospective application

2. Adjusting for the change of useful life, what will be the carrying amount of the plant at 30 September 20X3?

$_____ million

3. What will be the effect of change in (ii) on profits for the year ended 30 September 20X3?

A. Increased by $400,000
B. Reduced by $400,000
C. Increased by $1,600,000
D. Reduced by $1,600,000

Answer: D 10 B

IAS 10 Events after reporting period

☑ **IAS 10 是高频考点，需要背过定义以及常见例子**

1. Definition 【背过】

Event after the reporting period：those events, both favorable or unfavorable, that occur between the end of the reporting period and the date that the financial statements are authorized for issue.

2. Adjusting events 【背过】

Provide evidence of conditions that existed at the end of the reporting period.

Examples:

① The resolution after the reporting date of a court case giving rise to a liability
② Discovery of fraud or errors
③ The bankruptcy of a customer indicates that their debt was irrecoverable at the reporting date
④ Determination after the year end of the sale or purchase price of assets sold or purchased before the year end
⑤ The sale of inventory at less than cost indicates that it should have been valued at NRV

3. Non-adjusting events【背过】

Are those that are indicative of conditions that arose after the reporting period.

Examples:

① Business combinations
② Major restructuring
③ Changes in foreign exchange rates and tax rate
④ Commencing major litigation
⑤ A purchase or sale of a non-current asset
⑥ The destruction of assets due to fire or flood
⑦ The announcement of plans to discontinue an operation
⑧ An issue of shares
⑨ Dividend declared or paid

2.2 Disclosure

Non-adjusting events should disclose the nature and financial effect of the event.

【经典例题】2019年6月真题

Jeffers Co prepares financial statements for the year ended 31 December 20X8. The financial statements are expected to be authorized for issue on 15 March 20X9. The following three events have occurred in January 20X9:

(1) Health and safety fine

A health and safety investigation of an incident which occurred in 20X8 was concluded in January 20X9, resulting in a $1.5m fine for Jeffers Co. A provision for $1m had been recognized in Jeffers Co's financial statements for the year ended 31 December 20X8.

(2) Customer ceased trading

Notice was received on 10 January 20X9 that a customer owing $1.2m at 31 December 20X8 had ceased trading. It is unlikely that the debt will be recovered in full.

(3) Acquisition of a competitor

The acquisition of a competitor was finalized on 10 January 20X9, being the date Jeffers Co obtained control over the competitor. Negotiations in respect of the acquisition commenced in May 20X8.

1. Which, if any, of the following statements regarding IAS 10 Events after the Reporting Period is/ are correct

(1) Events after the reporting period are deemed to be all events from the date the financial statements are authorized for issue up until the date of the annual meeting with the shareholders

(2) Non-adjusting events do not need to be reflected in any part of an entity's financial statements or annual report

A. 1 only
B. 2 only
C. Both 1 and 2
D. Neither 1 nor 2

2. Which of the three events which occurred in January 20X9 would be classified as adjusting events in accordance with IAS 10?

(1) Health and safety fine
(2) Customer ceased trading
(3) Acquisition of a competitor

A. 1 and 2 only
B. 1 and 3 only

C. 2 and 3 only

D. 1, 2 and 3

3. Which TWO of the following events which occur after the reporting date of a company but before the financial statements are authorized for issue are classified as Adjusting events?

A. A change in tax rate announced after the reporting date

B. The discovery of a fraud which had occurred during the year

C. Determination after the year end of the sale proceeds of assets sold before the year end

D. Destruction of a factory by fire

Answer: D A B and C

IAS 21 Foreign currency transactions

1. Definition【背过】

功能性货币（高频考点）	Functional currency is the currency of the primary economic environment in which the entity operates. **决定功能性货币时需要考虑的因素（背过）：** ① The currency that mainly influences sales prices ② The currency of the country whose competitive forces and regulations ③ The currency that mainly influences labour, material and other costs of sales ④ The currency in which funds from financing activities ⑤ The currency in which receipts from operating activities
列报货币	Presentation currency is the currency in which financial statements are presented
即期汇率	Spot exchange rate is the exchange rate at the date of transaction
货币性科目	Monetary item are the assets and liabilities to be received or paid in a fixed or determined number of units of currency

2. Initial measurement

IAS 21 states that a foreign currency transaction should be recorded, on initial recognition in the functional currency, by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction to the foreign currency amount. 所有的外汇交易都需要在交易日用即期汇率 (首选) 折算成列报货币入账。

An average rate for a period may be used if exchange rates do not fluctuate significantly. 也可以用交易时段的平均汇率折算，前提是交易时段的汇率波动不大。

3. Subsequent measurement

科目	是否需要年底二次折算	汇兑损益 gain or loss
Monetary items	需要	SPL（经营活动分类）
Non-monetary items	成本法：不需要	—
	公允价值法：需要	SPL（投资活动分类）
	重估法：需要	OCI

【经典例题】

1. 2019年6月真题

Vernon Co sold goods to an overseas customers on 1 December 20X8 for 12m Kromits (Kr). They agreed a 60-day payment term. No entries have yet been made to record this sale, although the goods were correctly removed from inventory and expensed in cost of sales. The amount remains unpaid at 31 December 20X8.

Relevant exchange rates are:
1 December 20X8: 6.4 Kr/$
31 December 20X8: 6.0 Kr/$

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

2. 2025年3月模拟卷

Alpha Co uses Dollar $ as its functional currency. On 20 August 20X4, it purchased goods worth Swiss Franc (CHF)1,200,000 when the exchange rate was 1 CHF=$1.16. On 20 September 20X4, Alpha Co paid 50% of the invoice amount, according to the terms of the contract, the balance 50% would be payable on 20 October 20X4. Alpha Co has a year-end of 30 September 20X4.
The exchange rates were as follows:
On 20 September 20X4 1 CFH=$1.14
On 30 September 2024 1 CFH=$1.17

Which of the following is the correct accounting treatment for Alpha Co according to IAS 21 The Effects of Changes in foreign exchange rates for the year ended 30 September 20X4?
A. Net Exchange loss $12,000 and foreign trade payable $696,000
B. Net Exchange gain $6,000 and foreign trade payable $702,000
C. Net Exchange loss $9,074 and foreign trade payable $517,000
D. Net Exchange gain $4,420 and foreign trade payable $512,000

Answer：B

IFRS 13 Fair value measurement

1. Definition【背过】

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2. Valuation techniques

Where fair value is determined using a valuation technique, IFRS 13 prescribes that the technique should be one of the following:

① **Market approach:** uses price and other relevant market information for identical or comparable assets
② **Income approach:** converts future amounts to a single discounted present value amount
③ **Cost approach:** amount that would currently be required to replace the service capacity of the asset

3. Level of FV【背过】

根据计算FV输入数据 "input" 的可靠程度，可以对FV的结果进行以下排序，排序越高越可靠：

Level 1 Inputs	Quoted prices in active markets for identical assets or liability that the entity can access at the measurement date.
Level 2 Inputs	Inputs other than quoted prices included in Level 1 that are directly or indirectly observable: • Quoted price of identical asset or liability in inactive market • Quoted price of similar asset or liability in active market
Level 3 Inputs	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

【经典例题】2021年模拟卷

IFRS 13 Fair value measurement sets out a fair value hierarchy that categories inputs into three levels. Select the correct level for each of the following inputs:

Inputs			
Unobservable inputs for the asset or liability	Level 1	Level 2	Level 3
Quoted prices for similar assets or liability in active market	Level 1	Level 2	Level 3
Quoted prices in active market for identical assets or liability	Level 1	Level 2	Level 3
Inputs other than quoted prices that are observable for the assets or liability	Level 1	Level 2	Level 3

Answer:

Level 3, Level 2, Level 1, Level 2

第十二章 单体报表 Prepare basic financial statements

1. Trial balance

Trial balance ($'000)	Dr	Cr
Assets	X	
General and administrative expense （常规费用）	X	
Selling expense （常规费用）	X	
Other operating expense （常规费用）	X	
Research and development expense（一次性费用）	X	
Business restructuring expense（一次性费用）	X	
Cost of sales （常规费用）	X	
Interest expense（常规费用）	X	
Equity		X
Liability		X
Income		X
Sales/revenue		X
Accumulated depreciation		X
Accumulated amortization		X
Bank balance	X	X
Current tax	X	X
Total	XX	XX

☑ 考点：特殊一次性费用如果金额重大需要单独列示，其余费用根据材料提示分类列示。

根据IFRS 18要求，需要将利润表中的科目具体分类为：

分类	含义
Operating category	任何收入和费用不属于以下四种分类的皆属于经营活动，例如： - Depreciation and amortisation - Impairment loss - 生物资产后续计量价值变化（changes in FV- CTS） - Inventory written down - Research and development expense - Business restructuring expense - Government grant income（可以和other operating income合并记录，也可以单独列示，或抵减相关费用，具体要求看材料） - Exchange gain or loss（应收应付后续折算产生的汇兑损益） - 带有重大融资情节销售中产生的利息收入（属于主营业务的一部分，属于经营活动分类，可以和other operating income合并记录，也可以单独列示）
Investing category	收入和费用产生于： ① 对联营公司投资 ② 现金及现金等价物 ③ 其他能产生独立回报的资产（例如投资债券，投资股票以及投资性房地产） Eg. 属于投资活动分类的科目： - Interest income（投资债券） - Dividend income - Rental income - Gain or loss on FV（投资性房地产，FVTPL） - Gain or loss on disposal of investment property（不包括PPE处置） - Depreciation of investment property（如果使用的是成本法） - Share of associate's profit（合并利润表）

Financing category	由负债产生的收入和费用，例如： - Interest expense（包括债券利息，可转债利息，银行贷款利息，本质为负债的利息，预计负债利息，租赁利息，以及后续展开产生的利息） - 可赎回优先股的分红，本质为利息
Income tax category	由 IAS 12 产生的收入和费用
Discontinued operation category	由 IFRS 5 固定资产持有待售和停止经营产生的收入和费用

高顿教育 GOLDEN EDUCATION

Statement of profit or loss and other comprehensive income for the year ended 31/12/2025

		$'000
Operating	Sales revenue	X
	Less: Cost of sales	(X)
	Gross profit 毛利润	**X**
	Add: Other operating income	X
	Less：Operating expense	
	Selling expense	(X)
	Research and development expense	(X)
	General administrative expense	(X)
	Other operating expense	(X)
	Operating profit 经营利润（新增）	**X**
Investing	Share of profit of associate	X
	Investment income	X
	Profit before financing and income tax 息税前利润	**X**
Financing	Interest expense from borrowing and lease liability	(X)
	Interest expense on provision	(X)
	Profit before income tax 税前利润	**X**
Income tax	Income tax expense	(X)
Discontinued	**Profit from continuing operation 持续经营净利润**	**X**
	Profit or loss from discontinued operation 停止经营净盈亏	**X/(X)**
	Profit 年终净利润	**X**
	Other comprehensive income：	
	Revaluation gain under revaluation model (netted off tax effect)	X
	Gain or loss of FVTOCI	X/(X)
	Total comprehensive income	**XX**

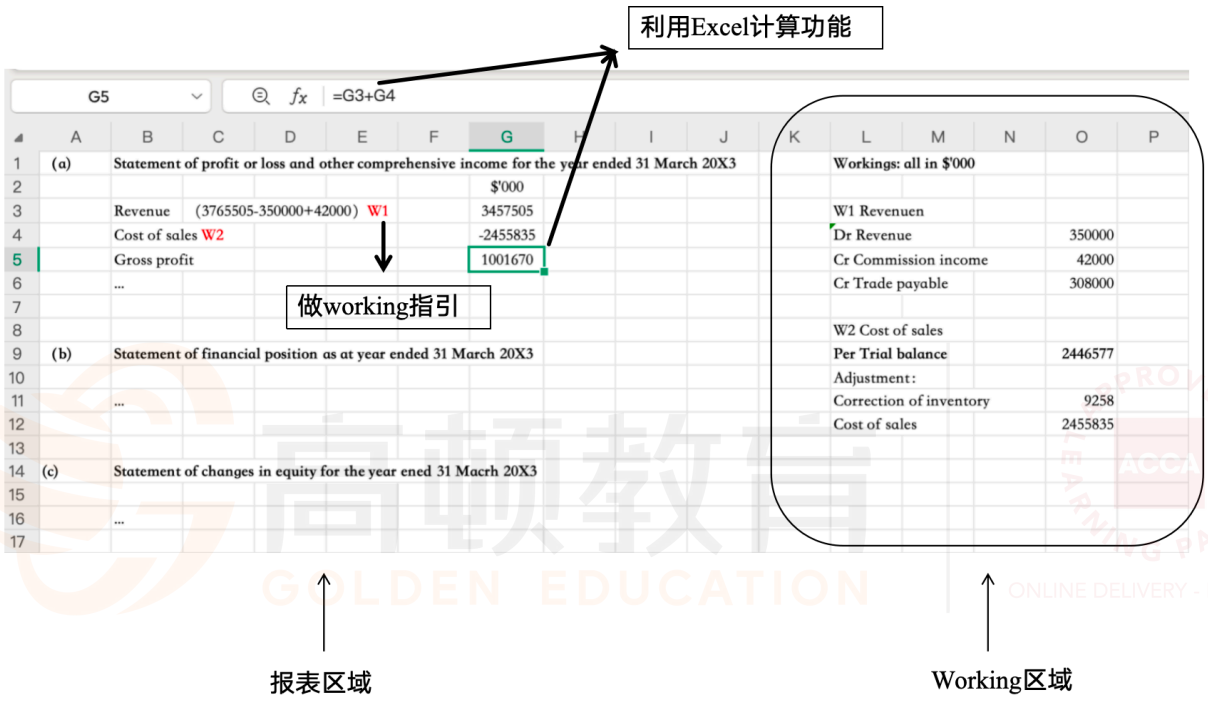

范例：**2019年6月真题**

Revenue	80632
Cost of sales	(46410)
Gross profit	**34222**
General and administrative expense	(20115)
Operating profit	**14107**
Investment income	6118
Profit before financing and income tax	**20225**
Interest expense	(4050)
Profit before income tax	16175
Income tax expense	(3330)
Profit	**12845**
Other comprehensive income	
Revaluation gain	9000
Total comprehensive income	**21845**

注意：

- 考试时不需要写分类标题
- 注意利息费用表达为interest expense
- 重大且一次性费用需要单独列示，例如研发费用等，其余费用分类根据材料要求

机考格式：

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P
1	(a)	Statement of profit or loss and other comprehensive income for the year ended 31 March 20X3										Workings: all in $'000

13																
14	(c)	Statement of changes in equity for the year ened 31 Macrh 20X3														
15																
16		...														
17																

☑ 单体报表注意事项：

1. Working在右，报表在左（或working在下，报表在上）
2. Working 单位与试算平衡表保持一致
3. Working 要写序号和小标题
4. 不强制写分录
5. Working里可以写加减式子，段落描述，自己认为表达清楚就可以
6. 可以做标记
7. Working里可以简写，报表里最好不要用简写
8. 不用区分大小写
9. Excel内公式考官能看到，不用我们操心
10. 报表数据需要与Working做指引（手工标注或利用Excel功能标注都可以）
11. 只写working不编报表至少扣一半分数
12. 报表按科目给分，最终结果不平不影响整体得分

【必刷题清单】

第十三章 现金流量表

IAS 7 Statements of cash flows

1. Introduction

1.1 Definition【背过】

① Cash in hand

② Deposits less overdrafts has be drawn

③ Cash equivalents：are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value

1.2 Activity of cashflow

性质分类	含义【了解即可，不用背】
Operating Activities	Cash flows from operating activities are those that normally arise from transactions relating to trading activities.
Investing Activities	Investing activities are the acquisition and disposal of long term assets, and other investment.
Financing Activities	Financing activities are activities that alter the equity capital and borrowing structure of the entity and will comprise receipts and payments of capital/principal from or to external providers of finance.

1.3 Method of cashflow

IAS 7 allows two possible layouts for the statement of cash flows:

- The indirect method：operating activity
- The direct method：investing activity，financing activity

2. Format【背过】

Cash flow statement for the year ended 31 December 2025		
1. Cash flow from operating activities		$
Operating profit（新考纲）		**X**
Adjustment:		
Add back：Depreciation and amortization	非现金类科目	X
Add back：Impairment loss	非现金类科目	X
Add back：Foreign exchange loss	非现金类科目	X
Add back：Loss on disposal of NCA	重分类到投资活动	X
Less：Profit on disposal of NCA	重分类到投资活动	(X)
Less：Foreign exchange gain	非现金类科目	(X)
Adjusted profit		**X**
Less / Add：Increase / decrease in inventory	资产与现金变化相反	(X)/X
Less / Add：Increase / decrease in trade receivables	资产与现金变化相反	(X)/X
Add / Less：Increase / decrease in trade payables	负债与现金变化相同	X/(X)
Cash generated from operating activities		**X**

Net cash flows		**C**

Changes in cash and cash equivalents	*A+B+C*	**X/(X)**
Opening cash and cash equivalents		**X/(X)**
Closing cash and cash equivalents at year end		**X/(X)**

现金流量表Workings：

W1 Tax paid

	Taxation liability
Opening (DTL + Tax payable)	X
Add: Tax expense (SPL)	X
Less: Cash paid (倒推)	(X)
Closing (DTL + Tax payable)	X

练习：

The statements of financial position of Nedburg Co includes the following extracts:

	20X2	20X1
	$'m	$'m
Non-current liability		
Deferred tax liability	310	140
Current liability		
Tax payable	130	160

The tax charge in the statement of profit or loss for the year ended 30 September 20X2 is $270m.

What amount of tax was paid during the year to 30 September 20X2?

$_____million

Answer：130

W2 Purchase of NCA

	PPE
Opening	X
Add: Purchase (倒推)	X
Add: Revaluation	X
Add: Dismantling cost	X
Less: Disposal	(X)
Less: Depreciation and impairment	(X)
Closing	X

练习：

1. The carrying amount of property, plant and equipment was $410m at 31 March 20X1 and $680m at 31 March 20X2. During the year, property with a carrying amount of $210m was revalued to $290m. The depreciation charge for the year was $115m. There were no disposals.

   What amount should appear under "investing activities" in the statement of cash flows as cash paid to acquire property, plant and equipment?

   $_____million

2. The following information is available for the property, plant and equipment of Fry as at 30 September:

	2014	2013
	$'000	$'000
Carrying amounts	23,400	14,400

The following items were recorded during the year ended 30 September 2014:

① Deprecation charge of $2.5m

② An item of plant, with carrying amount of $3m, was sold for $1.8m

③ A property was revalued upwards by $2m

④ Environmental provisions of $4m relating to property, plant and equipment were capitalized during the year

What amount would be shown in Fry's statement of cash flows for purchase pf property, plant and equipment for the year ended 30 September 2014?

A. $8.5m
B. $12.5m
C. $7.3m
D. $10.5m

Answer：305，A

W3 Issue of shares

	Equity
Opening (share capital + share premium)	X
Add: Cash issue (倒推)	X
Closing (share capital + share premium)	X

W4 Dividend paid

	Retained earnings
Opening	X
Add: Net profit	X
Less: Dividend paid (倒推)	(X)
Closing	X

W5 Interest paid

	Interest payable
Opening	X
Add: Interest expense (SPL)	X
Less: Cash paid (倒推)	(X)
Closing	X

W6 Lease payment

	Total lease liability
Opening （NCL+CL）	X
Less: Lease payment (倒推)	(X)
Closing （NCL+CL）	X

第十四章 财报分析 Ratio analysis

1. 财务公式

Ratio 公式【背过】		单位
1. Gross profit margin	Gross profit / Sales * 100%	%
2. Operating profit margin（更改）	Operating profit / Sales * 100%	%
3. ROCE	PBIT / (Debt + Equity) * 100%	%
4. Assets turnover	Sales / (Debt + Equity)	Times
5. ROE	（PAT - Preference dividend）/ Equity * 100%	%
6. Current ratio	CA / CL	N : 1
7. Quick ratio	(CA - Inventory) / CL	N : 1
8. Inventory holding period	Inventory / Cost of sales * 365	Days
9. Inventory turnover	Cost of sales / Inventory	Times
10. Receivable collection period	TR / Credit sales 或 sales * 365	Days
11. Payable payment period	TP / Credit purchase 或 cost of sales *365	Days
12. Working capital cycle **Operating cycle**	Inventory days + TR days - TP days	Days
13. Gearing ratio	Debt / Equity * 100% Debt /（Debt + Equity）*100%	%
14. Interest cover	PBIT / Finance cost	Times
15. Dividend per share (DPS)	Total dividend paid / Number of ordinary shares	Cents
16. Dividend cover	PAT / Total dividend paid	Times
17. Dividend yield	DPS / Market price * 100%	%
18. Price / Earning ratio	Market price / EPS * 100%	% or times

☑ 考点：**Debt 包括**

① Bank loan

② Loan notes

③ Redeemable preference shares

④ Convertible loan nots：liability element only

⑤ Lease liability（NCL+CL）

⑥ Loan in substance

2. 财报分析

Performance	利润表分析
Gross profit margin	自身常规原因： • Change in sales price • Good or poor cost control • Change in the cost classification • Change in sales mix 外界原因： • Increased in purchase price or production cost 采购成本，生产成本 • Inventory writes down due to damages and obsolete 存货贬值风险 • One-off cost such as research expenditure or PPE's impairment loss. However, these are non-recurring items which may not exist in the future. 一次性科目产生导致成本增加，但预计今后不会再有，后续利润回升
Operating profit margin	自身常规原因： • Good or poor control of overheads 外界偶然原因： • One-off expenditure may distorted this year's margin such as redundancy cost. 一次性支出费用的产生，导致利润减少
ROCE	• 行业原因：Type of industry（a manufacturing company will typically have have higher assets and lower ROCE than a services or knowledge- based company） • 资产使用情况：Age of assets（old assets have a lower carrying amount resulting in low capital employed and high ROCE • 购买新资产时间因素：Timing of the purchase of assets（if assets are purchased at the year-end，capital employed will increase but there will have been no time to increase profit yet，so ROCE is likely to fall. 材料特殊因素： • 【买比租划算】Owing an asset would be compensated by a higher return due to not having the lease liability. • 【资产增值产生不利影响】The use of revaluation model will adversely impacting the ROCE due to having the revaluation surplus. Besides, the increased in carrying amount without any physical increase in its earnings capacity.

<table>
<tr><td colspan="2">【Performance conclusion 利润表分析结论】
• Overall, the movement of profit margin or ROCE is due to xxxx
• xxxx is the most concerned issue in operating performance
• For the future prospect, xxx may increased or decreased.</td></tr>
<tr><td>Asset turnover</td><td>【与去年相比增加原因】
• 资产正值成熟期:
• The improvement maybe due to the new purchased assets or the development project coming on stream and is generating revenues.

【与去年相比减少原因】
• 资产太新:
• The new purchased PPE will take time to come to the full production capacity. Therefore, this unfavorably distorts current years's figures.
• 资产太旧:
• The owned PPE nearing the end of useful life which is not contributed to the assets turnover.

【高于同行业原因】
• This indicates company's business strategy which is generate more sales to compensate for the lower profit margin

【低于同行业原因】
• Company is charging higher price to compensate less sale volumes which results in lower assets turnover but higher profit margin.</td></tr>
<tr><td>Financial position</td><td>资产负债表分析</td></tr>
<tr><td>Inventory holding periods</td><td>自身因素:
• Pursued a higher or lower pricing strategy
• A build-up in inventory level, perhaps suggesting that the investment in inventory is becoming excessive
• Offer generous credit policy to customers
外界因素:
• Movement of demand for products
• Bulk buying discount
• Obsolete inventory lines</td></tr>
</table>

Receivable collection periods	自身因素： • Poorly managed credit control • Offer generous credit policy to customers 外界因素： • Due to customer bankruptcy
Payable payment periods	• Due to lower or negative bank balance • Lack of long-term finance • Could lead to future problems with supplier's relationship or increased bank overdraft
Current/quick ratio	• Due to bank overdraft
Gearing	【变化原因】 • Issued new shares or loan notes • Repayment of loan notes 【影响】 ① 对股东 high amount of borrowings carry high interest expense, hence will reduce the profit available for distribution to shareholders. This can be solved by issuing shares, however, the existing power of shareholders will be diluted. ② 对资产抵押 less sufficient tangible assets for the future borrowings ③ 对将来借款能力 further borrowings my be limited and more expensive ④ 对已发行股票 making the current shares more risky ⑤ 如果gearing低于行业水平，说明公司未能物尽其用，利用廉价的借贷来创造利润 lower gearing level indicates the company is not efficient in using of borrowing to create shareholders wealth.
Interest cover	• Movement of profit margin • Issued new loan notes leading to higher finance cost • Reducing finance cost by repayment of borrowings
【Overall conclusion】 • Although ……. (虽然公司状况不好，但可有还有其它解释，利用材料信息具体解释） • Lack of further information …… （由于缺乏具体信息，比如折旧，采购等无法作出具体分析） • 最后做出综合判断	

第十五章 合并报表介绍

- IFRS 10 Consolidated financial statements

Voting power	Degree of influence	Types of investment	Accounting treatment
> 50%	Control	Subsidiary	Full consolidated
20% - 50%	Significant influence	Associate	Equity method
< 20%	No influence	Financial assets	FVTPL FVTOCI

1.1 Parent and subsidiary

Parent	A parent is an entity that controls one or more other entities
Subsidiary	Subsidiary is a company controlled by another company
Control	According to IFRS 10 Consolidated financial statements an investor 投资者 controls investee 被投资者 when: ① Power over the investee to direct the relevant activities 有权决定被投资方活动和决策 ② Exposure, or rights, to variable returns from its involvement with investee 有权享有被投资方利润最为可变投资回报 ③ Ability to use its power over the investee to affect the amount of the investors' returns 投资方有权影响自身的投资回报

Existence of control	【情况1】 控股超过50%（带有投票权的普通股） 【情况2】 控股小于等于50%，但能够证明以下任意一点实事存在： ① The parent has power over more than 50% of voting rights by virtual agreement with other investors （投资方和其他股东捆绑投票，投票比例一共超过50%） ② The parent has power to govern the financial and operating polices （投资方有权控制被投资方的金融和经营等重大决策） ③ The parent has power to appoint or remove the majority of members of board of directors （投资方有权利任命或裁撤超过一半的董事会成员） ④ The parent has power to cast a majority of votes at meeting of board of director （投资方享有董事会超过50%的投票权）

【经典例题】

IFRS 10 Consolidated financial statements provides a definition of control and identifies three separate elements of control.

Which one of the following is Not one of these elements of control?

A. Power over the investee
B. The power to participate in the financial and operating policies of the investee
C. Exposure to, or rights to, variable returns from its involvement with the investee
D. The ability to use its power over the investee to affect the amount of the investor's returns

Answer: B

1.2 Consolidated Financial Statements

Means financial statements of whole Group presented as a single set of accounts.

1.3 Non-Controlling Interest 非控制性权益/少数股东权益

NCI is a collective representation of the shareholders that normally own 49% or less of equity.

☑ 考点：合并报表注意事项

① 编制合并报表前，需要统一母子公司的会计政策和会计准则，不属于IAS 8 会计政策变更

② 若母子年末时间不同，需要把子公司时间调整为母公司时间，除非年末时间差小于等于三个月，则可以不用调整

③ 即使子公司被收购时就打算将来售出，属于IFRS 5 停止经营的范围，也要编合并报表

④ 只要投资方享有控制权，所有情况下都需要进行合并（高频考点）

2. Associate

Associate	Is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture of other company
Significant influence	This is defined as the 'power to participate', but not to 'control' (which would make the investment a subsidiary)
Existence of significant influence	【情况1】投资方占有普通股 20%-50%，且被投资企业不能是其它公司的子公司 【情况2】 若持股比例小于20%，需证明以下任意一点实事存在： • Representation on the board of directors 董事会列席 • Participating in policy making process, including participation in decisions about dividends or other distributions 有权参与决策制定过程 • Material transactions between the investor and the investee 双方存在重大交易 • Interchange of managerial personnel 双方存在管理层人员交换 • Providing of essential technical information 对联营公司提供重要技术支撑

【经典例题】2019年12月考官报告

Which of the following should be accounted for as subsidiaries in the consolidated financial statements of Preece Co?

(1)	Gilber Co	Preece Co currently owns 40% of the share capital of Gilber Co and holds options to purchase another 20% which it can exercise immediately
(2)	Grovez Co	Preece Co owns 60% of Grovez Co and has appointed the majority of the board of directors
(3)	Roge Co	Preece Co owns 80% of Roge Co. Roge Co is loss-making and Preece Co is considering selling it in the near future

A. 1 and 2 only
B. 2 and 3 only
C. 1 and 3 only
D. 1, 2 and 3

Answer：D

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

第十六章 合并报表编制

- **Consolidated statement of financial position**
- **Consolidated statement of profit or loss and other comprehensive income**

1. Goodwill

商誉是由企业合并中取得的，不能单独辨认并确认的其他资产所形成的代表未来经济利益的资产

The company may have acquired shares in the subsidiary at a price greater than the acquired net assets. The difference is called goodwill and is measured at the date of acquisition (DOA).

思考1

Golden Co acquired all of the 1,000 shares of Simple Co for $8 paid per share. The market price of Simple Co is $10 per share.

At the acquisition date, the fair value of Simple Co's assets was equal their carrying amount with the exception of an item of plant:

- Carrying amount is 2,000
- Fair value is 2,500

子公司报表:	$
Share capital	1,000
Share premium	1,000
Retained earnings	1,000
Revaluation surplus	1,000

思考2

Golden Co acquired 80% of the 1,000 shares of Simple Co for $8 paid per share. The market price of Simple Co is $10 per share.

At the acquisition date, the fair value of Simple Co's assets was equal their carrying amount with the exception of an item of plant:

- Carrying amount is 2,000
- Fair value is 2,500

☑ 考点：如果报表中子公司没有share premium就证明子公司过去在发行股票时没有产生股本溢价，而是按照面值平价发行，不需要用子公司现在的股价重新计算share premium

子公司报表：	$
Share capital	1,000
Share premium	1,000
Retained earnings	1,000
Revaluation surplus	1,000

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

1. 1 Format of goodwill （背过）

（1）简单版 - 主观大题

Cost of investment		X
FV of NCI	【子公司股数✖20%✖子公司股票市价】	X
		X
Less: Total net assets		(X)
Goodwill		X

（2）完整版 - 客观小题

Cost of investment		X
FV of NCI	同上公式	X
		X
Less:		
Share capital	X	
Share premium (if any)	X	
Revaluation surplus（if any）	X	
Retained earnings	X	
+ / - FV adjustment【公允价值调整】	X/(X)	
+ / - Unrecorded assets or liability【补记未确认科目】	X/(X)	
Total net assets		(X)
Goodwill		X

【注意】

- Positive goodwill：recognized as NCA in consolidated statement of financial position
- Negative goodwill（bargain purchase）：Credited to consolidated statement of profit or loss

2. 合并资产负债报表三大原则

① 子公司的资产，负债全部合并

② 消除组内交易

③ 非控制权益（NCI）也要体现在报表内

【例题1】

100%收购 + 年底收购

	Parent	Subsidiary	Group
Non-current assets			
PPE	4,000	2,400	
Investment in Subsidiary	8,000	-	
Current assets			
Inventory	1,600	2,100	
Trade receivables	2,000	1,000	
Equity			
Share capital	5,000	1,000	
Share premium	3,000	1,000	
Retained earnings	5,000	2,000	
Liability			
Trade payables	2,600	1,500	

【例题2】

80%收购 + 年底收购

已知 FV of NCI 是10,000

	Parent	Subsidiary	Group
Non-current assets			
PPE	4,000	2,400	
Investment in Subsidiary	6,400	-	
Current assets			
Inventory	1,600	2,100	
Trade receivables	2,000	1,000	
Equity			
Share capital	5,000	1,000	
Share premium	3,000	1,000	
Retained earnings	5,000	2,000	
NCI 【20%】			
Liability			
Trade payables	1,000	1,500	

Consolidated statement of financial position:

Equity		
Share capital 【parent only】	母	X
Share premium 【parent only】	母	X
Group's revaluation surplus	母 +（子收购后增值✖ 80%）	X
Group's retained earnings	第五步中计算（W5）	X
Non-controlling interest	第四步中计算（W4）	X

3. 合并资产负债表五步法 Five-working method

W1：计算收购成本

W2：计算子公司**net assets**

W3：计算收购日商誉

W4：计算**NCI**年底公允价值

W5：计算集团留存收益**Group RE**

W1：**Cost of investment**

1	Cash consideration	现金对价
2	Deferred consideration	递延对价***
3	Contingent consideration	或有对价**
4	Share for share exchange	以股换股***
5	Loan notes exchange	以债换股

【经典例题】

1. 2008年12月真题

On 1 April 2008, P acquired 60% of the equity share of S (total is 4m shares) in a share exchange of 2 shares in P for every 3 shares acquired in S. At the date of acquisition, market price of P is $6 each.

2. 2016年6月真题

At 1 October 2015, P acquired 60% of S's equity shares (total is 9m shares) by means of a share exchange of 1 new share in P for every 2 acquired shares in S. In addition, P will pay a further $0.54 per share acquired one year later. (cost of capital is 8%) The market price of P is $3 per share at acquisition.

3. 2014年6月真题

On 1 October 2013, P acquired 90% of S's 100m equity shares. The acquisition was achieved through a share exchange of 1 share in P for every 3 shares in S. At that date the market price of P is $4 per share. Additionally, P will pay $1.54 cash on 30 September 2014 for each share acquired. The finance cost is 10%.

4. 2013年12月真题

On 1 April 2013, P acquired 75% of the equity shares of S (total 6m shares). P made an immediate cash payment of $1.5 per share. In addition, P will pay a further amount in cash on 30 September 2014 based on post performance. The value of this contingent consideration at the acquisition date is $1.8m. But at year end, this is only $1.5m.

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

5. 2013年6月真题

On 1 October 2012, P acquired 75% of S's equity shares (20m in total) by means of a share exchange of 2 shares in P for every 5 acquired in S. The market price of P is $2 each. In addition, P issued to S at par value one $100 loan note for every 1000 shares it acquired.

W2： Net assets of subsidiary

逻辑：Equity = Net assets

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital	X	X	
Share premium	X	X	
Retained earnings	X	X	
Revaluation surplus	X	X	
Net assets	**X1**	**X2**	**X**

计算收购日商誉　　按持股比例分配给大小股东

【经典例题】

1. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，求收购日子公司净资产net assets 以及post-acquisition RE?

2. 知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司investment property公允价值比账面价值高$500，此价值到年底为$700

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Net assets			

3. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司一群羊sheep公允价值比账面价值高$500，此差值到年底为$700

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Net assets			

4. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司inventory公允价值比账面价值高$500，年底有五分一的存货已出售给第三方（2025年6月考季原题）

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Net assets			

5. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司trade receivable中有一笔坏账或可疑账项计提未调整，金额为$500，到年底坏账金额不变

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Net assets			

6. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司的PPE公允价值比账面价值高$500，此时PPE剩余寿命为5年

Equity	**DOA** **收购日**	**DOC** **年末合并日**	**Post- acquisition RE** **收购后留存收益**
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Depn【折旧增加，年末RE减少】			
Net assets			

7. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司的PPE公允价值比账面价值低$500，此时PPE剩余寿命为5年

Equity	**DOA** **收购日**	**DOC** **年末合并日**	**Post- acquisition RE** **收购后留存收益**
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Depn【折旧减少，年末RE增加】			
Net assets			

8. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司provision公允价值高于账面价值$500，此价值到年底为$700

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital			
Share premium			
Retained earnings			
FV adjustment			
Net assets			

9. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司有一未确认科目为brand name，当日公允价值为$500，寿命为5年

Equity	**DOA** 收购日	**DOC** 年末合并日	**Post- acquisition RE** 收购后留存收益
Share capital			
Share premium			
Retained earnings			
Brand name			
Amortisation 【补记摊销，年末RE减少】			
Net assets			

10. 已知收购日子公司股本为$1,000，股本溢价$1,000，留存收益$2,000，年末子公司留存收益为$3,000，收购当日，子公司有一未确认科目contingent liability，当日公允价值为$500

Equity	**DOA** **收购日**	**DOC** **年末合并日**	**Post- acquisition RE** **收购后留存收益**
Share capital			
Share premium			
Retained earnings			
Contingent liability			
Net assets			

难点：Unrecorded assets and liabilities

① **Internally generated intangible assets**： customer list, relationship , brand name should be recognized at fair value 内部产生的无形资产在合并报表里需以公允价确认，且需要补记摊销

② **Contingent liability**： should be recognized at fair value 或有负债在合并报表里需以公允价确认

考点：求收购日 RE

① 已知年初RE，收购日RE = opening RE + 收购前利润

② 已知年末RE，收购日RE = closing RE - 收购后利润

W2 Net assets of subsidiary（背过）

Equity（子公司）	**DOA** **收购日**	**DOC** **年末合并日**	**Post-acquisition RE** **收购后留存收益**
Share capital	X	X	
Share premium	X	X	
Revaluation surplus	X	X	
Retained earnings	X	X	
Adjustments:			
(1) Assets			
调增资产	X	X	
折旧变大，年末RE减少		（X）	
调减资产	（X）	（X）	
折旧减少，年末RE增加		X	
(2) Liability			
调增负债	（X）	（X）	
调减负债	X	X	
(3) Unrecorded assets			
以公允价值确认	X	X	
补记摊销，年末RE减少		（X）	
(4) Unrecorded liability			
以公允价值确认	（X）	（X）	
(5) URP (子是卖家)		（X）	
Net assets	**XX**	**XX**	**X**

W3 Goodwill

Cost of investment	X
Add：FV of NCI	X
	X
Less： Total Net assets	(X)
Goodwill 【收购日】	X
Less: Goodwill impairment after acquisition（如果有）	(X)
Goodwill 【年末】	X

IAS 36 资产减值组：

Dr Impairment loss X

Cr Goodwill X

W4 NCI

For the purpose of exam，NCI is to be measured at fair value. At year ended，the NCI share of post-acquisition retained earnings should be added to the NCI：

FV of NCI	X
Add: Post-acquisition RE ✖20% （子公司收购后留存收益）	X
Less: Impairment loss ✖ 20%	(X)
Add: Post-acquisition RS ✖20%（如果有）	X
NCI	X

W5 Group RE（未完待续）

Parent's RE （母公司自己全部留存收益）	X
Add: Post-acquisition RE ✖80% （子公司收购后留存收益）	X
Less: Impairment loss ✖ 80%	(X)
Less: unwind of deferred consideration （递延对价利息）	(X)
Less: URP (母是卖家)	(X)
Add/less： FV movement of contingent consideration（或有对价FV变化）	X/(X)
Add： Negative goodwill（负商誉本质为收益，增加利润，留存收益额增加）	X
Group's RE	**X**

总结：合并资产负债表五步法【背过】

W1 Cost of investment

W2 Net assets of subsidiary

Equity	**DOA**	**DOC**	**Post-acqusiition RE**
Share capital	X	X	
Share premium	X	X	
RE	X	X	
FV adjustments	X/(X)	X/(X)	
Depn		(X)/X	
Unrecorded assets/liability	X/(X)	X/(X)	
Amortization		(X)	
URP （子卖）		(X)	
Net assets	**X1**	**X2**	**X（X2-X1）**

W3		**W4**		**W5**	
Cost of investment	X	Post-acq RE（20%）	X	Post-acq RE（80%）	X
+ FV of NCI	X	+ FV of NCI	X	+ P's RE	X
- Net assets	(X1)	- Impairment （20%）	(X)	- Impairment （80%）	(X)
Goodwill【收购日】	X	**NCI**	**X**	- URP (母卖）	(X)
- Goodwill impairment	(X)			- Unwind	(X)
Goodwill 【年末】	**X**			+ Negative goodwill	X
				+/- 或有对价FV 变化	X/(X)
				Group RE	**X**

4. Intra-group transaction 组内交易

IFRS 10 Consolidated financial statements requires intra- group balances and transactions to be eliminated in full. The purpose of consolidation is to present the parent and subsidiary as if they are trading as one entity.

- 存货买卖（未实现利润)******
- 固定资产买卖
- 账户余额***
- 在途科目（在途现金和在途存货)***
- 组内借款
- 组内股利

4.1 Unrealized profit

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

总结：

① 调减集团存货价值

② 调减卖家留存收益：

母卖	子卖
Dr Parent's RE X Cr Group inventory X	Dr Subsidiary's RE X Cr Group inventory X

公式： URP = 卖家全部利润 * 年底未出售存货比例

= 买家年底未出售存货价值 * 利润率

【经典例题】

1. 已知子公司仓库中有价值100万的存货是从母公司内部购得，母公司对此组内交易征收margin 20%的利润

2. 已知子公司仓库中有价值100万的存货是从母公司内部购得，母公司对此组内交易征收mark-up 20%的利润

4.2 PPE transfer / sold

	Seller	Buyer
PPE	100	150
Depn（5年）	-20	-30
Carrying amount	80	120

（1）合并调整法：

母卖		子卖	
Dr Parent's RE	40	Dr Subsidiary's RE	40
Cr Group PPE	40	Cr Group PPE	40

注意：两笔分录按情况写其中一笔分录即可

（2）拆分调整法：

卖家		买家	
Dr Gain on disposal（seller RE）	50	Dr Group PPE	10
Cr Group PPE	50	Cr Depreciation expense（buyer RE）	10

注意：两笔分录都需要写，即调卖家又调买家

4.3 Account balance / Intra - group balance

Seller	Buyer
Trade receivable = 100	Trade payable = 100

消除账户余额：

Dr Group trade payable X

Cr Group trade receivables X

4.4 Items in transit / Account unbalance

Seller	Buyer
Trade receivable = 120	Trade payable = 100

Cash in transit		Goods in transit	
Step1: 确认收款		Step 1: 确认赊购	
Dr Group cash	20	Dr Group inventory	20
Cr Group trade receivable	20	Cr Group trade payable	20
Step 2: 消除账户余额		Step 2: 消除账户余额	
Dr Group trade payable	100	Dr Group trade payable	120
Cr Group trade receivable	100	Cr Group trade receivable	120

4.5 Intra - group loan

Lender	Borrower
Loan note investment = 1,000	Loan note liability = 1,000
Investment income = 50	Finance cost = 50

消除组内借贷：

Dr Loan note liability X

Cr Loan note investment X

消除组内利息：

Dr Investment income X

Cr Finance cost X

4.6 Intra - group dividend

子应付股利	母应收股利
Dividend payable = 100	Dividend receivable = 100

消除股利账户余额：

Dr Dividend payable X

Cr Dividend receivable X

注意：还需要消除合并利润表中的投资收入（即股利分红收入）

5. 合并利润表

① 每行科目都需做合并100% 相加【忽略持股比例，但要考虑收购时间】

② 消除组内交易

③ 最后需要分配利润

注意：合并利润表也需要根据新考纲要求格式编制，按类别分类，考试直接抄母子公司单体利润表格式即可。

【例题】80%收购 + 年中收购

	Parent	Subsidiary	Group
Revenue	10,000	8,000	
Cost of sales	(6,000)	(3,000)	
Gross profit	**4,000**	**5,000**	
Operation expense	(1,000)	(800)	
General and administrative expense	(800)	(200)	
Operating profit（新增）	**2,200**	**4,000**	
Investment income (dividend income from subsidiary or associate)	2,000	-	消除
Share of associate's profit（如果有）	-	-	X
Profit before financing and income tax	**4,200**	**4,000**	
Interest expense	(100)	(200)	
Profit before income tax	**4,100**	**3,800**	
Tax expense	(1,000)	(800)	
Profit	**3,100**	**3,000**	
Other comprehensive income：			
Revaluation gain	1,000	500	
Total comprehensive income	**4,100**	**3,500**	
净利润分配 Profit after tax attributable to：			
（1）Parent			剩余
（2）NCI			A
综合性收益分配 Total comprehensive income attributable to：			
（1）Parent			剩余
（2）NCI			B

5.1 利润分配 Attributable to NCI

Subsidiary's PAT (子公司税后净利润) ✖ n/12	X
Adjustments :	
① Goodwill impairment（子商誉减值，利润减少）	（X）
② Depn / amortisation（子补记折旧摊销，费用增加利润减少；费用减少利润增加）	(X)/X
③ URP (子卖，利润高估，需要调减）	(X)
	X
	✖ 20%
Profit attributable to NCI	**A**
+ Revaluation gain (子公司收购后又增值) ✖ 20%	X
+ / - Gain or loss on FVTOCI ✖ n/12 ✖ 20%	X/(X)
Total comprehensive income attributable to NCI	**B**

☑ 考点：

- 子公司收购日增值不记入OCI，不属于集团收益，只有收购后增值才属于集团收益
- 商誉减值损失属于经营活动分类，可以和费用合并记录，也可以单独列示，看材料要求
- 负商誉确认为收入，计入经营活动分类

5.2 Unrealized profit

6. Disposal of subsidiary （高频考点）

6.1 母公司单独处理

Sales proceeds	X
Less: Original cost of investment	(X)
Profit / loss on disposal (记母公司单独利润表)	X/(X)

6.2 集团处理（背过计算格式）

Sales proceeds	X
Add：FV of NCI （出售日NCI公允价值）	X
Less: Goodwill（出售日）	(X)
Less: Net assets （出售日子公司净资产即Equity）	(X)
Profit / loss on disposal （记集团合并利润表）	X/(X)

注意：处置盈亏属于经营活动分类

【经典例题】

On 1 January 20X3 Golden Co acquired 80% of Bill Co's 100,000 of $1 shares for $300,000. The goodwill acquired in the business combination was $40,000, of which 50% had been written off as impaired by 31 December 20X5 Golden Co sold all of the Bill Co's shares for $450,000 when Bill had retained earnings of $185,000. The FV of NCI at disposal date is $100,000.

Profit on disposal in the individual financial statement: $_____

Profit on disposal in the consolidated financial statement: $_____

Answer: 150000, 245000

7. IAS 28 Investment in associates

IAS 28 requires the use of the equity method or equity accounting for investment in associates.

权益法三大原则：

① 不对联营公司的资产或负债合并（没有控制）

② 在合并利润表中新增一个当期收益科目

③ 在合并资产负债表中新增一个投资科目

权益法的核心思想是按照我方在联营公司所占的权利比重（即持股比例）来计算应得利益，记入我方的财务报表

合并利润表：

Sales revenue	母 + 子	X
Cost of sales	母 + 子	(X)
Gross profit		**X**
Other operating income	母 + 子	X
General and administrative expense	母 + 子	(X)
Operating profit		**X**
Investment income	母 + 子 - 收到子公司 - 联营公司分红	X
Share of associate's profit	权益法计算集团份额利润: Associate's profit * 月份/12 * 40%	X
Profit before financing and income tax		**X**
Interest expense	母 + 子	(X)
Profit before income tax		**X**
Income tax expense	母 + 子	(X)
Profit		**X**
…		

合并资产负债表：

Non- current assets		
PPE	母 + 子	X
Goodwill	W3	X
Investment in associate	权益法计算投资联营公司价值： 收购成本 + （Post-acquisition associate's RE * 40%）- 分红	X
Current assets		
Inventory	母 + 子	X
Trade receivable	母 + 子	X
Cash	母 + 子	X
Total assets		**XX**
Equity：		
Share capital	母	X
Share premium	母	X
Group's RE	W5	X
NCI	W4	X
Current liability		
Trade payable	母 + 子	X
Total equity and liability		**XX**

高顿教育 GOLDEN EDUCATION
APPROVED LEARNING PARTNER ACCA ONLINE DELIVERY - PLATINUM

7.1 Goodwill impairment

Total impairment loss ✖ 40% = Share of impairment loss

Dr Share of associate's profit X
Cr Investment in associate X

以下表述，为已经乘过持股比例之后的减值金额：

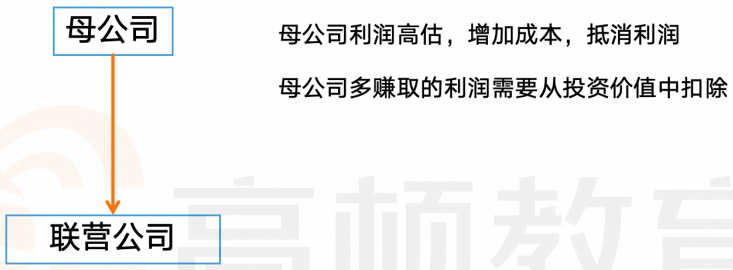

- The value of investment in associate was impaired by $400
- The impairment loss of $400 relating to the value of investment in associate
- Investment in associate had suffered an impairment loss of $400

7.2 Unrealized profit

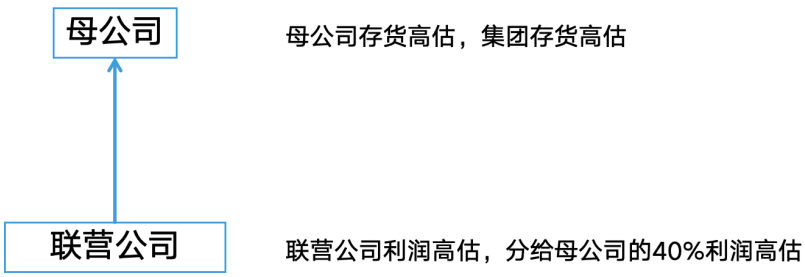

Total URP ✖ 40% = Adjusted URP

Downstream sales 母公司是卖家（顺流）		**Upstream sales** 联营公司是卖家（逆流）	
Dr Cost of sales	X	Dr Share of associate's profit	X
Cr Investment in associate	X	Cr Group inventory	X

（1）母公司是卖家：

（2）联营公司是卖家：

口诀：母卖调减投资价值

联卖调减集团存货

无论谁卖，都要调减集团留存收益（W5）

☑ 考点：

母公司是卖家：增加母公司销售成本，母公司利润减少，母公司留存收益减少（W5）

联营公司是卖家：分得联营公司利润减少，母公司利润减少，母公司留存收益减少（W5）

7.3 Dividend

Associate paid total dividend ✖ 40% = Group received dividend

母公司单体报表		权益法	
Dr Cash	X	Dr Dividend income	X
Cr Dividend income	X	Cr Investment in associate	X

权益法总结：

（1）合并利润表：

Share of associate's profit （投资活动分类）

= （Associate's profit ✖ n/12 ✖ 40%） - （Total impairment ✖ 40%） - （Total URP ✖ 40%）

（2）合并资产负债表：

Consolidated Statement of financial position	
Non-current assets	
Investment in associate（投资价值见公式）	**X**

投资价值计算格式（背过）：

Cost of investment	X
Add：Associate's post-acquisition RE ✖ 40%	X
Less: Total dividend paid ✖ 40%	（X）
Less: Total impairment ✖ 40%	（X）
Less： Total URP ✖ 40%	（X）
Add: Associate's post-acquisition revaluation surplus ✖ 40%（联营公司资产收购后增值）	X
Investment in associate	X

☑ 考点：收购后联营公司留存收益及一系列调整需要同步到W5中

Parent's RE （母公司自己全部留存收益）	X
Add: Post-acquisition RE ✖ 80% （子公司收购后留存收益）	X
Less: Impairment loss ✖ 80%	(X)
Less: unwind of deferred consideration （递延对价利息）	(X)
Less: URP (母是卖家）	(X)
Add/less：FV movement of contingent consideration（或有对价FV变化）	X/(X)
Add：Negative goodwill（负商誉本质为收益，增加利润，留存收益额增加）	X
Add：Associate's post- acquisition RE ✖ 40%（联营公司收购后留存收益）	X
Less： Total dividend paid ✖ 40%	(X)
Less： Total impairment ✖ 40%	(X)
Less： Total URP ✖ 40%（母卖/联营卖）	(X)
Group's RE	**X**

“累，是因为你在走上坡路”。当年我考FR时，也曾盯着合并报表真题哭到凌晨三点。但今天，当我面试新人时，看到简历上的“ACCA FR已通过”，立刻会多给10分钟展示时间，因为我知道，能跨过这道坎的人，都经历过思维和韧性的双重淬炼。

你不是在写题，是在给未来的自己写一张头等舱的登机牌。

现在，请站起来冲一杯咖啡，打开一套真题，对自己说：我要去的地方很远，现在流的每一滴泪，都是未来财务报表上的一个零。

马斯克考斯坦福博士时也曾崩溃到想放弃，后来他说：“真正重要的不是智商，是咬牙多走一步的惯性”。你已经走到这里了，惯性会推着你冲过终点！

敬丹Jane
